Krishnaswamy,2023-03-24 This book builds a case for how social norms are neither mere conventions nor are they merely anthropological phenomena which are relativistic In other words it talks about how socio political norms are built out of our natural social behaviour but at the same time also have objective normative validity The volume puts forth an alternative model called the recognitional model which can help us address some of the socio political concerns we face in today s world It addresses the problem with a purely legalistic framework of addressing social injustice in that law due its universalistic assumptions regarding human nature tends to glide over the particular differences that might exist between people This book discusses how we know that in our daily lives we value people not only because that person is a legal human being but also because that person is our father mother our teacher etc There is a whole network of acts of social respect that we engage in with the other in our social sphere which the legal framework can t quite capture This volume sheds light on the political consequence of legal reasoning in that it is formalistic in the sense that legal relations can t successfully codify the immediate epistemic context from which social identities emerge An introspective work this book will be of great interest to scholars and researchers of linguistics political philosophy law and human rights and social theory **Children's Books in Print** R R Bowker Publishing,Bowker,1999-12 **The Power of Ideas** Isaiah Berlin,2000 The essays collected in this new volume show Isaiah Berlin on his most lucid and accessible form These shorter more introductory pieces provide the perfect starting point for the reader new to his work Those who are already familiar with his writing will also be grateful for this further addition to his collected essays The linking theme as in the case of earlier volumes is the crucial social and political role past present and future of ideas and of their progenitors Book Jacket **Faith and Freedom** Catholic University of America Commission on American citizenship,1945 *Social Studies for Secondary Schools* Alan J. Singer,2008-10-26 This popular text advocates an inquiry and activity based view of social studies teaching that respects the points of view of students and teachers Based in practice and experience it offers systematic support and open honest advice for new teachers is conversational not pedantic and provides lots of examples While the structure and most of the topics remain largely the same as before this Third Edition presents new lesson ideas in every chapter especially designed to help new teachers to address learning standards to work in inclusive settings and to promote literacy and the use of technology in social studies classrooms puts a heavier focus on what is important to know and why includes new essays on the politics of social studies education responds to opponents of project or activity based social studies instruction and
