The Report: Tunisia 2017 Oxford Business Group, Tunisia's GDP totalled TD84.3bn (36.2bn in 2015) expanding at a rate of
0.8% down from growth of 2.3% the year before. The fall was due to a variety of external factors including two terrorist
incidents that negatively affected the tourism sector in particular and shook business confidence more generally. However
growth picked up somewhat in 2016 standing at 1.1%, 1.4% and 1.3% in the first, second and third quarters of the year
respectively and is expected to maintain this upward trend in 2017 supported by greater export competitiveness. Moves to
bolster the economy through reforms such as the new investment law and plans to tackle wider structural issues are likely to
help to raise growth to higher levels than those witnessed in recent years as should the improvement in security since the
2015 attacks though the extent of this will depend in part on whether or not the economy of the country's main export
destination and tourism source market the eurozone can emerge from its own recent slowdown **Automobile Engineer**
