Communications,2010-03-29 The Committee warns of a major public reaction against radio digital switchover scheduled for 2015 unless the Government make the case for switchover and keep the public informed about its impact There is public confusion and industry uncertainty over radio switchover and concern that due to the lack of public information people are still buying analogue radios which will be out of date in a few years time Retailers gave evidence stating that they are not getting adequate information on switchover plans so are unable to offer consumers accurate guidance when making purchases The report also points out that car manufacturers are still fitting analogue radios in new cars and digital radios will not be fitted as standard in all cars until 2013 The radio switchover is contrasted with the television switchover programme finding that the benefits of TV switchover were well understood in contrast surveys show that the public are generally happy with the present FM radio system and with the range of programmes that are provided The Committee recommends urgent steps on a range of actions including providing a detailed plan for universal digital radio coverage including how it is to be funded developing a policy for the long term use of FM devising a help scheme for radio switchover financed by general taxation rather than the BBC licence fee ensuring new digital car radios are fitted with a multi standard chip to enable their use overseas encouraging radio manufacturers and retailers to devise a sensible scrappage scheme for redundant analogue radios It is also noted that the BBC and Government disagree over whether the cost of universal digital coverage of their national stations can be met under the current licence fee The report says that it is essential that a firm and unambiguous plan for funding the completion of build out of the digital radio service is put in place as soon as possible The report concludes reversing current policy would be unproductive given the amount of investment in digital radio already and while the switchover in 2015 is ambitious a change of target date is not favoured at this stage Catalogue Montgomery Ward,1982 **Eurostat-OECD Methodological Manual on Purchasing Power Parities** OECD,Statistical Office of the European Communities,2007-05-24 Explains the why how and when of the international price and volume comparisons organised by Eurostat and OECD and provides advice on the use and interpretation of Eurostat OECD PPP figures *The Complete Car Cost Guide* IntelliChoice, Inc,1994 **Popular Mechanics** ,1980-07 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle **The Complete Car Cost Guide, 1998** Steven Gross,Kristina Clson,Kristina Olson,Vincent Mendolia,1998-02 **Standard Guide to American Muscle Cars** John Gunnell,2002 This full color reference to more than four decades of American made muscle cars covers Ford Pontiac Chevrolet AMC Oldsmobile Dodge Plymouth and more Every car is featured in full color Listings include original specs options production figures and a pricing guide with six condition grades *Automotive Industries, the Automobile* ,1922 **Low Rider** ,2001 **Subject Guide to Books in Print** ,1984 *Gale's Auto Sourcebook* ,1991 Guide to information on cars and light trucks **The Autocar** ,1918
