Competing In Emerging Markets Cases And Readings:

Competing in Emerging Markets Hemant Merchant,2008 Given the increasing prominence of Emerging markets a sophisticated understanding of their perils and promises is crucial to the growth of companies including those from within Emerging markets themselves Thus it is surprising that in their quest to train managers only a few academic institutions currently provide a systematic forum to generate a superior understanding of this important economic event This groundbreaking book provides an essential set of readings and case studies that will facilitate a much needed fundamental rethinking about drivers of successful as well as unsuccessful firm conduct in these markets and about the role of sophisticated but usually poorly serving Western theories and ideas regarding competition and competitive traps and successes Although the book is intended primarily for Emerging markets courses it can also be used for various other courses in International management or International strategy It explores the following themes the strategic and operational challenges companies face while competing in these relatively new and therefore generally unfamiliar markets the imperative to generate creative solutions in response to idiosyncratic challenges posed by Emerging markets *Competing in Emerging Markets* emphasizes both the unique challenges facing corporate managers who operate or intend to operate in Emerging markets and the ways in which managers can efficiently and effectively respond to these competitive challenges As one of the first comprehensive texts on this subject *Competing in Emerging Markets* is certain to become a standard in the field

Understanding Family-Owned Business Groups Manlio Del Giudice,2017-03-09 This book addresses the increasing prominence of family owned business groups and their potential to influence growth and development in the global economy Family businesses are not necessarily converging towards unitary models of corporate governance or organizational designs but remain heterogeneous in a global economy Empirical evidence on the developmental effects of family owned business groups is fragmented and inconclusive are there tangible differences between family owned business groups in emerging economies and developed countries Are there important variations across and between industries How have geopolitical circumstances shaped their activities In this book the author seeks alternative pluralistic and cross disciplinary approaches through economic management and organizational perspectives This book provides readers with a core understanding of how both corporate governance and business strategy are shaped by the institutional frameworks of markets as well as knowledge into how institutional context shapes the governance and strategies of family business groups It is an invaluable reference tool for scholars and students in the social sciences as well as professionals involved in strategic management issues within a knowledge management context
