

Wave Recognition

A pair of pattern-recognition cards is used with each child. The wave-like patterns they pass through (vertical and horizontal) are observed. Individual differences in the pattern-recognition problem are noted and recorded. Make a similar recognition test for children with other ages. Use the same wave-like patterns. They are available in Appendix 2.

The figure shows a grid of 10 rows of wave patterns on a dotted background. Each row is labeled on the left with a number from 1 to 10. The patterns are split by a vertical line. A small diagram of a car is on the right side of the grid.
