Introduction

Financial planning starts with setting clear and realistic financial goals. Whether it's funding and financially securing your child's future or finally owning that dream house, every financial dream requires a well-thought-out plan of action. Before you can execute your plan, however, you need to specifically define your targets.

Money drives many decisions that we make day to day. Setting goals can help us take control and feel more confident about those decisions. Financial goals are the most important objectives you set for how you will save and spend money. They can be things you hope to achieve in the short term or long term.

- Paying off debt.
- Saving for retirement.
- Building an emergency fund.
- Buying a home.
- Saving for a vacation.
- Starting a business.
- Feeling financially secure.
- Investment planning and method.
- Management of Cash and saving.
- Appropriate use of cash and credit.

There are several types of financial goals:

1. Short-term goals
2. Mid-term goals
3. Long-term goals

1. Short-term financial goals - These are smaller financial targets that can be reached within a year. These goals are focused on immediate needs and are important in building a strong
