Irrational Man A Study In Existential Philosophy William:

Irrational Man William Barrett, 1962-07-01 Widely recognized as the finest definition of existentialist philosophy ever written this book introduced existentialism to America in 1958 Barrett speaks eloquently and directly to concerns of the 1990s a period when the irrational and the absurd are no better integrated than before and when humankind is in even greater danger of destroying its existence without ever understanding the meaning of its existence *Irrational Man* begins by discussing the roots of existentialism in the art and thinking of Augustine Aquinas Pascal Baudelaire Blake Dostoevski Tolstoy Hemingway Picasso Joyce and Beckett The heart of the book explains the views of the foremost existentialists Kierkegaard Nietzsche Heidegger and Sartre The result is a marvelously lucid definition of existentialism and a brilliant interpretation of its impact

Irrational Man William Barrett, 1958 **Irrational man** William Barrett, 1958 *Irrational Man* William Barrett, 1962 **Heideggerian Theologies** Hue Woodson, 2018-11-27 In light of Martin Heidegger's contextualized influence upon them John Macquarrie Rudolf Bultmann Paul Tillich and Karl Rahner engage in theologies that in their respective tasks and scopes venture into existential theology following Heideggerian pathmarks toward the primordially of being on the way to unconcealment or aletheia By way of each pathmark each existential theologian assumes a specific theological stance that utilizes a decidedly existential lens While the former certainly grounds them fundamentally in a kind of theology the latter by way of Heideggerian influences allows them to venture beyond any traditional theological framework with the use of philosophical suppositions and propositions In an effort at explaining the relationship between humanity's being and God's Being each existential theologian examines what it means to be human not strictly in terms of theology but as it is tied inextricably to an understanding of the philosophy of existence the concept of what being is *Introduction to Existentialism* Robert L. Wicks, 2019-09-19 This textbook introduces you to existentialist philosophical theory and its cultural influence The first part of the book offers an introductory overview of the 19th century historical roots of existentialist thought and chapters on all the key players Kierkegaard Nietzsche Heidegger Sartre de Beauvoir and Camus The second part presents a thematic approach with chapters on Christian and Jewish existentialism existentialism in America existential psychology and existentialism in the cinema Ideal for undergraduate and classroom use this engaging and accessible textbook includes pedagogical features such as study questions chapter summaries key definitions and further reading

Three Encounters David Farrell Krell, 2023-06-06 In 1974 thirty year old philosopher and translator David Farrell Krell began corresponding and meeting with Martin Heidegger and Hannah Arendt Years later he would meet Jacques Derrida and through many letters and visits come to know him well Drawing on unpublished correspondence and Krell's warmly told personal recollections *Three Encounters* presents an intimate and highly insightful look at the lives and ideas of three noted philosophers at the peak of their careers *Three Encounters* offers a chance for readers to encounter these three great philosophers and their ideas not merely through the lens of their biographies but as people we come to know through their

personal correspondence and Krell's recollections *Three Encounters* demonstrates the intertwining of thought and lived experience *Existential America* George Cotkin, 2003-01-24 As Cotkin shows not only did Americans readily take to existentialism but they were already heirs to a rich tradition of thinkers from Jonathan Edwards and Herman Melville to Emily Dickinson and William James who had wrestled with the problems of existence and the contingency of the world long before Sartre and his colleagues After introducing the concept of an American existential tradition Cotkin examines how formal existentialism first arrived in America in the 1930s through discussion of Kierkegaard and the early vogue among New York intellectuals for the works of Sartre Beauvoir and Camus *After Freud Left* John Burnham, 2012-04-16 From August 29 to September 21 1909 Sigmund Freud visited the United States where he gave five lectures at Clark University in Worcester Massachusetts This volume brings together a stunning gallery of leading historians of psychoanalysis and of American culture to consider the broad history of psychoanalysis in America and to reflect on what has happened to Freud's legacy in the United States in the century since his visit There has been a flood of recent scholarship on Freud's life and on the European and world history of psychoanalysis but historians have produced relatively little on the proliferation of psychoanalytic thinking in the United States where Freud's work had monumental intellectual and social impact The essays in *After Freud Left* provide readers with insights and perspectives to help them understand the uniqueness of Americans psychoanalytic thinking as well as the forms in which the legacy of Freud remains active in the United States in the twenty first century *After Freud Left* will be essential reading for anyone interested in twentieth century American history general intellectual and cultural history and psychology and psychiatry *Meaning and Myth in the Study of Lives* Stuart L. Charmé, 2015-09-30 This book explores major theoretical issues in the study of an individual life through its focus on Jean Paul Sartre Sartre's quest for an existential psychoanalysis led him to develop what he called true novels in the landmark studies of Flaubert and others In clarifying Sartre's philosophical ideas in relation to the analysis of the self Stuart L. Charmé examines the attraction repulsion of Freudian concepts and explores parallels to Erikson's ego psychology Certain mythic qualities in religious biography and autobiography are seen as central to Sartre who presents lives including his own as normative models The book concludes by making a provocative link between the modern preoccupation with self analysis in biography and autobiography and a fundamental religious need that was once fulfilled by primitive myth **American Book Publishing Record** R.R. Bowker Company, 1978 **Author and Title Catalog** J. Henry Meyer Memorial Library, 1967 **The Doomed Detective** Stefano Tani, 1984 Tani's dissertation is the most stunningly original and intelligent I have encountered in 25 years of teaching wrote the late novelist John Gardner Tani's argument says that the mystery story as written by Hammett and others and touted by the French existentialists led to a new kind of novel and the old style mystery as written by for example Agatha Christie seemed a literary dead end a conservative if not reactionary game In recent years Tani shows the seeming dead end has led to the most important literary movement now visible the ironic intellectual fic

tion of people ranging from Borges and Barth to Calvino and he proves that the spearhead of this movement is Italian fiction as influenced by American mystery fiction At first glance the argument seems outrageous The brilliance of Tani s thesis besides the original outrageous idea is that he solidly and systematically makes his case

Reader's Adviser and Bookman's Manual ,1960 Communicating Roy M. Berko,Andrew D. Wolvin,Darlyn R. Wolvin,1992 *The Thomist* ,1959 Includes book reviews *The Unknown Distance* Edward Engelberg,1972 Edward Engelberg argues that Conscience and Consciousness have slowly drifted apart from their once nearly identical meanings inward knowledge of oneself This process of separation he shows reached a critical point in the late eighteenth and nineteenth centuries the age of dualisms Tracing the evolution of the severance of Conscience from Consciousness he demonstrates from a wide range of examples in literature and philosophy how such a division shaped the attitudes of important writers and thinkers The study opens with the Romantics and closes with Kafka Hesse and Camus It includes analyses of Hegel Dostoevsky James Conrad and Freud and brings together for comparison such pairings as Poe and Mann Goethe and Wordsworth Arnold and Nietzsche Engelberg concludes that the cleavage of Conscience from Consciousness is untenable To dispossess Conscience he asserts man would also need to dispossess a full awareness a full Consciousness and a full Consciousness inevitably leads back to Conscience
