Issa Kiara Windrider,2023-08-19 This story began with a Kashmiri princess Miraan looking out in the early morning dawn towards a chariot of light being raised towards the heavens face aglow with a flaming radiance heart bursting with gratitude and love for all the years she was allowed to share with this most magnificent of men And as this story began so it ends For I am Miraan who shares this story with you as I have heard it from his own lips and as I have witnessed in the years I spent with him I did not think such a love was possible a love that grew stronger the more it was shared with all the world He was a great healer and king a simple monk and prophet an extraordinary lover and friend He was a man like any other except that he dared himself go where few men had been before Lovers were never meant to close themselves off from the rest of creation in isolated fantasy Lovers find each other in every face they encounter wherever they may be in this world And so as I come to the end of this story I see myself staring back at you each of you who reads these words and makes this story your own for my soul knows you This story will not end until you find yourself mirrored in these words and these acts touching the human as well as the divine spirit that dwells within Issa was not afraid to declare himself a Sun of God one with the Father of Light Find your own true heart likewise set yourself free

[Here Is Wisdom](#) Alexander Meer,2019-12-04 If you ever wanted to read a book that describes the history of the world as well as the origin and evolution of humankind in a nutshell this book is a must read We live in an age of information and technology and everything we want

to know about the world whether it is related to history philosophy science or religion is available at our fingertips Yet the more information we have at our fingertips the more confused we seem to become The traditional answers to the age old philosophical questions about who we are where we came from and where we are heading should be reevaluated and redefined in light of the abundance of information available at our fingertips today This book compiles all the essential information we need to know in order to reevaluate and redefine our deepest beliefs The forty chapters of this book provide great insights into the origin and evolution of human civilization by exploring the most recent scientific theories of our Modern Age It also explores all the hallmark events of history and analyzes those events from the point of view of science religion and the philosophical theories that emerged throughout the ages Each of the chapters of this book should be viewed as dots on a map that represents the journey of humankind from the beginning of time till the 21st century As you read through the various chapters how you choose to connect the dots is entirely up to you But no matter how you connect those dots the lines that you draw should represent a framework for understanding the nature and history of this world and our place within it

God...the Grand Illusion Dr. Ronald Pleune, 2022-08-29 The question is this what do we accept as the truth of what we believe in We take many things by mere faith but is faith the right path in putting our trust in a matter just because someone says so Do we dig into a matter with an open mind rather than prejudice and influences from others as we were growing up Does our relationship with others influence our perception of what is truth and what is not the truth Do we tend to accept something as truth because we don t have time or resources to check it out Or is it because of an emphatic

speech by a cleric that proclaims the Bible is without error when in fact outside sources point to errors in dates events and even interpretation yet we close our eyes and ears because we ask How can this be Many times the excuse is made that if so many people believe in a particular biblical statement or condition then it can t be wrong Or can it Debate on biblical issues end up boggling the general populous and many just walk away from it with disgust won t deal with it or dogmatically hold a position of biblical inerrancy This brings us down to getting into the trenches of discovering the truth as ugly and contentious it may seem This is especially true when ufology is brought into the picture especially when the topic of God or a God is introduced and examined in the light of various scientific disciplines
