for the Certified Nurse in Critical Care – Canada examination

The following questions are intended for practice only and represent a random sampling (but not exhaustive list) of possible topics that could be tested as part of the critical care certification examination. Questions have been designed to test assorted competencies listed in the blueprint for the Canadian Nurses Association Certified Nurse in Critical Care Examination. The blueprint is available from the Canadian Nurses Association website at:

http://www.cna-aicc.ca/CNA/documents/pdf/publications/CERT_Critical_Care_Adult_e.pdf

The degree of difficulty for these questions may be higher or lower than questions on the actual examination; questions have been developed to encourage a review of a variety of topic areas. Questions have been developed independent of the Canadian Nurses Association Critical Care Certification Examination Committee review.

These practice questions are for use by individual members of the Canadian Association of Critical Care Nurses (CACCN) only. Reproduction or electronic distribution without expressed written consent by CACCN is strictly prohibited.

Participant use of these questions does not guarantee success on the national examination. Accuracy of questions may change without notice based on new research evidence or national practice standards. CACCN is not responsible for any participant's clinical decision-making.
