promoting sustainable economies In 2024 nominal GDP per capita was 53 516 in Canada 84 590 in the U S and 13 966 in  
Mexico despite their proximity Why do the economy of Bangladesh and India differ from Luxembourg Remaking the Wealth  
of the Nations outlines three strategies to tackle global wealth inequality and promote growth 1 Artificial Productivity 2  
Leadership Matrix 3 Bureaucracy Index The concept of Artificial Productivity provides a new perspective on growth moving  
beyond the basic definition of productivity as output per labor hour The Leadership Matrix emphasizes the critical role of  
national leadership in economic progress helping citizens evaluate candidates and choose the best leaders The Bureaucracy

Chowdhury, 2018-07-23 This book has found out the reasons as to why the wealth of nations differ from each other Why the  
GDP per capita of Canada and the U S were 43 248 5 and 56 115 7 respectively in 2015 whereas Mexico was languishing at 9  
005 despite sharing common borders Why is the per capita of Malawi not identical to Luxembourg or USA Why the  
mountains of macro and micro economic studies failed to grow the economy up to expectation Have the theories of capitalism  
and communism dissipated into thin air Should the world think about an alternative option or formula for a better economy  
Remaking the Wealth of the Nations has carried out extensive research on different economies economic theories ideas and  
found out the common causes of economic successes and failures of the economies Finally this book has given out

**Rich Country, Poor Country** Benjamin F. Bobo, 2005-04-30 In this series of essays that span over 20 years of research Benjamin Bobo builds the case for multinational corporations to take an active role in combating poverty around the world Citing sobering statistics for example three fourths of the world's nations are classified as Third World and four fifths of the world's people live in these nations Bobo argues that huge corporate entities not only have the wherewithal but an obligation to alleviate the suffering that results from a lack of economic resources and opportunity Through these provocative and forward looking essays he presents a theoretical and practical framework for multinationals to stimulate economic development in the Third World providing access to capital entrepreneurial expertise and emerging technologies In a bold challenge to conventional thinking about wealth creation and strategic decision making Bobo applies such concepts as profit satisficing and stakeholder givebacks and proposes an agenda for change that begins in business schools the intellectual training ground for multinational managers with increased emphasis on sustainability and human development The net result he argues will be a world in which both producers and consumers benefit
