Polyurethanes Expo 1999 Spi,1999-09-14 **Lacquer Chemistry and Applications** Rong Lu,Tetsuo Miyakoshi,2015-08-03 Lacquer Chemistry and Applications explores the topic of lacquer the only natural product polymerized by an enzyme that has been used for a coating material in Asian countries for thousands of years Although the human lacquer culture including cultivation of the lacquer tree harvesting and the use of lacquer sap has a long history of more than thousand years there is very little information available on the modern scientific methods to study lacquer chemistry This book based on the results of the authors 30 years of research on lacquer chemistry offers lacquer researchers a unique reference on the science and applications of this extremely important material Covers the chemistry and properties of lacquer including synthesis of its various components Provides up to date analytical techniques for lacquer identification and characterization Discusses possible toxicity effects Outlines new modification techniques for developing higher performance material Presents the history of this versatile coating material that has evolved from its origins in Asian countries over thousands of years **FRP Composites in Civil Engineering** Jin-Guang Teng,2001-11-15 This Proceedings contains the papers presented at the International Conference on FRP Composites in Civil Engineering held in Hong Kong China on 12 15 December 2001 The papers contributed from 24 countries cover a wide spectrum of topics and demonstrate the recent advances in the application of FRP Fibre reinforced polymer composites in civil engineering while pointing to future directions of research in this exciting area Highway Research Institution of Civil Engineers (Great Britain),1991 The level of research activity in the highway sector as a whole has declined precipitously in recent decades whilst the challenges facing US state highway agencies have escalated As a result a Strategic Highway Research Program SHRP was initiated to establish collaboration with research bodies tackling similar highway problems in countries worldwide This collection of reports from around the world presents SHRP s progress towards providing research based new products from which the international highway engineering community may benefit SHRP concentrates on six high priority research areas asphaltic materials pavement performance cement and concrete maintenance cost effectiveness concrete bridge component protection systems and the chemical control of snow and ice Protection of Concrete Ravindra Dhir,Jeffrey Green,2003-09-02 Concrete is arguably the major construction material used worldwide It has generally served well yet too often it has failed to achieve the required performance Although developments in materials and practice have widened the scope for the use of concrete they have also had effects on its performance This book presents current thinking and future developments on means of protecting concrete and ensuring its adequate performance in the required application

Polymers in Concrete Y. Ohama,2003-09-02 Increasing attention is being given to the use of concrete polymer composites as high performance and multi functional materials in the construction industry as well as in mechanical electrical and chemical engineering Particular interest is being given to these materials in Japan and other East Asian

countries This book forms the proceedings of SPI/CI 52nd Annual Conference and Exposition 1997
