Power Engineering and Intelligent Systems Vivek Shrivastava,Jagdish Chand Bansal,Bijaya

Ketan Panigrahi,2026-03-09 This book presents a collection of the high quality research articles in the field of power engineering grid integration energy management soft computing artificial intelligence signal and image processing data science techniques and their real world applications This book is presented at International Conference on Power Engineering and Intelligent Systems PEIS 2025 held during March 8 9 2025 at National Institute of Technology Srinagar Uttarakhand India This book is presented in two volumes

The PhDictionary Herb Childress,2016-05-02 This is a book of advice for students considering doctoral programs and doctoral students considering faculty life It is framed as a glossary of about 150 terms that author Herb Childress as a first generation student wishes that he had known and understood as he applied for and completed his PhD and went into the academic job market The guide examines the practices of doctoral education and faculty life through entries that illuminate terms such as buyout edited volume and FERPA so many things that most academics learned somewhere along the way and forget that others don t know The alphabetical reference format enables readers to turn directly to the topic in question and find some borrowed wisdom Each entry features a little storytelling then some larger context and leaves readers able to put on the mask of the capable scholar even though they feel like impostors Every time they hear a term they feel they ought to know it is here The book is often funny as well attempting to offer both encouragement and reality to students facing unconscionable odds as they search for safe harbor As more than half of all college instructors are now adjuncts the questions about an academic career are changing and there are now fewer reliable answersand answers Herb Childress s volume promises to be a trusted companion to many a graduate student aspiring academic and adjunct professor
