*Food Processing Technology* P.J. Fellows,2016-10-04 Food Processing Technology Principles and Practice Fourth Edition has been updated and extended to include the many developments that have taken place since the third edition was published. The new edition includes an overview of the component subjects in food science and technology, processing stages, important aspects of food industry management not otherwise considered e.g. financial management, marketing, food laws and food industry regulation, value chains, the global food industry and overarching considerations e.g. environmental issues and sustainability. In addition there are new chapters on industrial cooking, heat removal, storage and distribution along with updates on all the remaining chapters. This updated edition consolidates the position of this foundational book as the best single volume introduction to food manufacturing technologies available, remaining as the most adopted standard text for many food science and technology courses. Updated edition completely revised with new developments on all the processing stages and aspects of food industry management not otherwise considered e.g. financial management, marketing, food laws and food industry regulation and more. Introduces a range of processing techniques that are used in food manufacturing. Explains the key principles of each process including the equipment used and the effects of processing on micro organisms that contaminate foods. Describes post processing operations including packaging and distribution logistics. Includes extra textbook elements such as videos and calculations slides in addition to summaries of key points in each chapter.

**Professional Baking, Student Workbook** Wayne Gisslen,2004-05-03 One of the most respected cookbooks in the industry, the 2002 IACP Cookbook Award Winner for Best Technical Reference, Professional Baking brings aspiring pastry chefs and serious home bakers the combined talent of Wayne Gisslen and the prizewinning Le Cordon Bleu in one volume. The revised Fourth Edition offers complete instruction in every facet of the baker's craft, offering more than 750 recipes including 150 from Le Cordon Bleu for everything from cakes, pies, pastries and cookies to artisan breads. Page after page of clear instruction, the hallmark of all Gisslen culinary books, will help you master the basics such as pate brisee and puff pastry and confidently hone techniques for making spectacular desserts using spun sugar and other decorative work. More than 500 color photographs illustrate ingredients and procedures as well as dozens of stunning breads and finished desserts.
