Asamblea General. Cámara de Representantes, 1921 Boletín judicial , 1968 First Pages Giancarlo Maiorino, 2010-11 Titology a term first coined in 1977 by literary critic Harry Levin is the field of literary studies that focuses on the significance of a title in establishing the thematic developments of the pages that follow While the term has been used in the literary community for thirty years this book presents for the first time a thoroughly developed theoretical discussion on the significance of the title as a foundation for scholarly criticism Though

Maiorino acknowledges that many titles are superficial and indexical there exists a separate and more complex class of titles that do much more than simply decorate a book's spine To prove this argument Maiorino analyzes a wide range of examples from the modern era through high modernism to postmodernism with writings spanning the globe from Spain and France to Germany and America By examining works such as *Essais* The Waste Land Ulysses and Don Quixote First Pages proves the power of the title to connect the reader to the thematic cultural and literary context of the writing as a whole Much like a facade to a building the title page serves as the frontispiece of literature a sign that offers perspective and demands interpretation
