What are different categories of antenna and give an example of each?

Different categories of antenna are as follows :

1. Wire Antennas - Short Dipole Antenna
2. Microstrip Antennas - Rectangular Microstrip (Patch) Antennas
3. Reflector Antennas - Corner Reflector
4. Travelling Wave Antennas - Helical Antennas
5. Aperture Antennas - Slot Antenna
6. Other Antennas - NFC Antennas

What is handover and what are its types?

Handover in mobile communication refers to the process of transferring a call from one network cell to another without breaking the call.

There are two types of handover which are as follows :

Hard Handoff : hard handoff is the process in which the cell connection is disconnected from the previous cell before it is made with the new one.

Soft Handoff : It is the process in which a new connection is established first before disconnecting the old one. It is thus more efficient and smart.

What is ionospheric bending?

When a radio wave travels into the ionospheric layer it experiences refraction due to difference in density. The density of ionospheric layer is rarer than the layer below which causes the radio wave to be bent away from the normal. Also the radio wave experiences a force from the ions in the ionospheric layer. If incident at the correct angle the radio

William V. Ruch, 1984-12-21 William V Ruch examines and compares corporate communications systems in the United States and Japan to discover what each can learn from the other The author demonstrates that business organization in each country is highly reflective of the overall culture In American corporations communication is intended to transmit information rapidly it is direct efficient and invites confrontation Japanese corporate communication also transmits information but adds an element of emotional message In both countries business communication is characterized by direction American companies have strong downward systems Japanese companies have strong upward systems Most channels of communication used in American firms are also used in Japan but some Japanese techniques could not and should not be used in the United States Ruch argues that American and Japanese corporations cannot learn a great deal from one another In fact the only thing that Americans should learn is the value of a strong system of upward communication The Japanese should learn that they need a faster system of decision making than the ringi system currently in use
