*Student's Companion to the World Wide Web* Jim Millhorn, 1999-11-03 The World Wide Web is expanding at a rapid pace. This progressive growth has inevitably created a proliferation of sites and information sources that are posted on this medium. Jim Millhorn attempts to examine a small corner of this undergrowth in *Student's Companion to the World Wide Web* by focusing on outstanding academic and scholarly sites for students in the social sciences and humanities. While the Web is an invaluable source of information, students do not always know how to extract the information that they seek. This guide can offer assistance. This book expertly handles common reference sources, search engines, meta subject guides, the humanities, and social science disciplines, which are arranged in an alphabetized sequence of chapters featuring each individual discipline. An innovative and timely answer to the student's quest for information, this book opens the broadest purview the Web offers on a specific discipline while simultaneously limiting the number of featured sites. *Choice*, 2006 **PCs Made Easy** Reader's Digest Association, Incorporated, The, 2001 **Channel**, 1995 **Government Information on the Internet**, 2002 **Library User Education in the New Millennium** Julia K. Nims, Ann Andrew, 2001 **Visual Resources Association Bulletin**, 2003 [Searching & Researching on the Internet & the World Wide Web](#) Karen Hartman, Ernest C. Ackermann, 2005 Hartman and Ackermann both Mary Washington College offer a work on how to search for information on the Internet. They thoroughly overview Internet searching and discuss search tools and strategies, directories, search engines, and specialized tools, searching for news and multimedia, and citing and evaluating Internet information. The strength of this book is the hands-on chapters that contain examples meant to appeal to students from a variety of disciplines. Each chapter contains practice exercises designed to allow readers to master fundamental search skills. Additionally, the chapters are compartmentalized, allowing readers to skip materials they feel are unnecessary or with which they are already familiar. The target audience for this book is readers with little knowledge of Internet searching and those who desire a primer on this topic. However, this book is also a helpful resource for any level of Web searcher because it contains in-depth information on current search engines and their features as well as other relevant Internet search tools. Kaplowitz, 2009 The second edition of this guide for librarians who need to implement informational literacy programs for diverse learners has been revised to include new practices and technologies in the 21st century. Grassian served as a library administrator at the UCLA College Library and she has teamed with fellow UCLA librarian Kaplowitz to deliver a plan that focuses on goal setting, mode selection, design, copyright, and assessment of these programs. A CD-ROM is included that contains sample mission statements, tables that evaluate assessment tools, practice handouts, and links to interactive Web pages. Annotation 2010 Book News Inc.
