

## Precalc/Algebra I Math Lab and Video Information

Contact Info: [edwards139@aol.com](mailto:edwards139@aol.com) 678-296-8653

We will again do math lab virtually this year. Math lab will be on Mondays, starting at 2:30 pm and ending at 4:00. Precalculus will be first going from 2:30 to 3:15 and algebra 1 second going from 3:15 to 4:00. If I find I need to extend the time, I will let you know. Both the precalc and algebra 1 sessions will combine the students from my Alpharetta and Cumming campuses.

Math lab is designed to review and assist students with the material that was taught during the last class session. I will start off each session by asking if there are any questions or specific problems you want me to review. I will then use the remaining time to do a review of the material for those students that want to stay. A student is free to sign off a math lab session if they believe their issue has been resolved.

You will get the most out of math lab by completing all, or at least a majority, of your homework before the start of the session. This will help you understand what sections you need the most help understanding.

The following will help you gain maximum benefit from the review sessions:

### Prior to the Review Session

- Complete all (or at least most) assigned Homework.
- Have homework graded and correct what you can
- Text or email specific problems you want to review during math lab. These will be the first ones we look at.

### During Review Session

- Be engaged!!! Even if you don't have a question on the problem being covered, turn to that problem in your homework to make sure you did it correctly.
- Ask questions. Having concepts explained is just as valuable as having problems worked out.

### Procedure

Log in from a tablet/computer (Phone screens are way too small!)

- Have a workspace so you can work out problems during the session
- Have your textbook, homework, assignment sheet, red pen, notetaking supplies and calculator.
- Have your Completed homework and filled out assignment sheet annotated with any questions you have

The URL and password are shown below. You can copy and paste the URL to your computer or tablet to enter the Zoom session. The precalc and algebra 1 sessions will be 45 minutes each and will run back-to-back with precalc going first at 2:30 followed by algebra 1 at 3:15. If I find that 45 minutes is not enough time, I will extend each period to an hour.

Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Student Notes And Problems Principles Of Math 1 books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Student Notes And Problems Principles Of Math 1 books and manuals is Open Library. Open Library is

an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Student Notes And Problems Principles Of Math 1 books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Student Notes And Problems Principles Of Math 1 books and manuals for download and embark on your journey of knowledge?
