Sustainable Facility Management Operational Strategies For Today:

Sustainable Facility Management John P. Fennimore, 2013-03-13 For diverse courses in facilities management and sustainability including capstone courses in facility management degree programs and for certificate programs in sustainable management This all encompassing text thoroughly illuminates the methods how to skills equipment and best practices of modern facility management Emphasizing practical operational aspects of sustainable facility management Sustainable Facility Management covers many topics that are absolutely essential to sustainability some of them covered in no other text Embracing multiple subject areas it can easily be used as the main text for a capstone course of a facility management degree program Topics covered include organizational structure cultural issues associated with property facility management career opportunities financial construction and emergency management environmental issues HVAC energy and water management green building strategic management and more Throughout chapter questions assignments photos and diagrams help students deepen their understanding These are complemented by many first hand insights about effective facility management

Rethinking Sustainability in Facilities and Workplace Management Frans Melissen, Bert Smit, Vitalija Danivska, Andrew Ngawenja Mzembe, 2022-08-19 This book discusses sustainability within the facility management industry However it is not another anthology of so called best practices and the seemingly endless range of certification schemes It is also not a marketing guide on how to communicate high pitched sustainability ambitions to potential customers to increase short term market share Instead this book is based on the realisation that most facility management businesses and departments actually find it hard to truly integrate sustainability into their strategies tactics and day to day operations in a coherent way It is also based on the reference point that sustainable development cannot be realised only through technological advancements and new procedures it requires new behavioural patterns of people Not only of your own employees as a supplier or department but also of those for whom you design stage and manage optimal workplace experiences Those patterns will not emerge from nowhere but need to be purposely created and cultivated based on a thorough understanding of what people and organisations need want and desire Through reviewing specific barriers and opportunities related to practical situations and examples at all three levels of facility management the operational tactical and strategic level and supported by the latest theoretical insights this book provides students and practitioners with inspiration and suggestions for using sustainability as a guideline for improving workplace experience concepts and FM strategies services and processes Each chapter uses specific cases and examples as the starting point for reflecting on avenues to move from treating sustainability as an add on to using it as a powerful concept to create optimal workplace experiences In doing so these reflections provide lecturers students and current and future professionals with practical guidelines and pointers to take sustainability within the facility management industry to a much needed next level

Facilities Management and Corporate Real Estate Management as Value Drivers Per Anker Jensen, Theo van der

Voordt,2016-10-04 Facilities Management FM and Corporate Real Estate Management CREM are two closely related and relatively new management disciplines with developing international professions and increasing academic attention Both disciplines have from the outset a strong focus on controlling and reducing cost for real estate facilities and related services In recent years there has been a change towards putting more focus on how FM CREM can add value to the organisation This book is driven by the need to develop a widely accepted and easily applicable conceptual framework of adding value by FM and CREM It presents the state of the art of theoretical knowledge and empirical evidence about the impact of buildings and facilities on 12 value parameters and how to manage and measure these values The findings are connected to a new Value Adding Management model The book is research based with a focus on guidance to practice It offers a transdisciplinary approach integrating academic knowledge from a variety of different fields with practical experience It also includes 12 interviews with practitioners shedding light as to how they manage adding value in practice This is a much needed resource for practitioners researchers and teachers from the field of FM and CREM as well as students at both undergraduate and postgraduate level

Proceedings of the International Conference on Engineering, Science, and Urban Sustainability (ICESUS 2025) Amevi Acakpovi,Peter Nyanor,Wellington Didibhuku Thwala,Sandip Kale,Abejide Ade-Ibijola,2026-01-31 This is an open access book Theme Innovative Solutions for Sustainable Engineering Science and Urban Development Overview ICESUS 2025 serves as a multidisciplinary forum that integrates cutting edge research in engineering applied sciences and urban sustainability The conference aims to provide practical solutions to the pressing challenges of urbanization climate change and resource management By fostering collaboration between academia industry and government institutions ICESUS 2025 seeks to drive sustainable innovation for a better future Objectives Foster multidisciplinary collaboration Promote sustainable technological innovation Showcase research and innovation from Accra Technical University and beyond Encourage knowledge exchange between academia and industry Support emerging researchers and innovators Enhance ATU s role as a sustainability and engineering hub in Ghana and West Africa Conference Tracks ICESUS 2025 welcomes submissions in the following areas Engineering and Technology Emerging technologies in mechanical electrical and civil engineering Automation robotics and artificial intelligence Renewable energy and sustainable infrastructure Applied Sciences and Environmental Innovation Advances in biotechnology and food science Climate change mitigation and environmental management Sustainable materials and green chemistry Built Environment and Urban Development Urban planning and green architecture Innovations in construction technology Smart cities and sustainable housing Interior design and upholstery technology

Developing Property Sustainably Sara Wilkinson,Sarah Sayce,Pernille Christensen,2015-06-05 Developing Property Sustainably introduces readers to the key issues surrounding sustainable property development in the global marketplace Pulling together received wisdom and original research the authors provide a clear and practical overview of the sustainable property development process as well as a critical appraisal

of the problems faced by global built environment stakeholders Throughout the authors demonstrate how the property development industry could and should respond better to debate on sustainable practices in the built environment by adopting more rigorous measurement techniques and sustainable approaches Starting by exploring key definitions and stakeholders the book goes on to explore finance planning construction procurement occupation retrofit and lifecycle sustainability in order to provide the reader with a detailed understanding of all the issues involved in the delivery of sustainable property development from inception to occupation and beyond Throughout the book international case studies are used to demonstrate how sustainable property development is applied in practice around the world With a logical chapter structure and accessible writing style *Developing Property Sustainably* would be perfect for use on undergraduate and postgraduate modules and courses in real estate development property and urban development and other built environment programmes

Civil Engineering Societal and Global Impact Shakuntala Acharya,2025-06-01 **Today's Facility Manager** ,2007 **Official Records** ,2006 **Facility Design and Management Handbook** Eric Teicholz,2001-02-14 A new paradigm in facility management A unique just in time resource from profession leader Eric Teicholz *Facility Design and Management Handbook* empowers you to make your facility state of the art Packed with tips from U S and international case studies from government health care retail finance manufacturing and academia this guide gives you access to the productivity tools technologies and stratagems that have revolutionized the field in the last five years helping you to Find the best most cost effective solutions for issues from greenness and sustainability to disaster recovery and technology integration Use new tools for space and asset allocation project management process coordination and systems integration Improve accuracy in financial forecasting budgeting architectural and interior design planning and market research Create cost effective smart buildings with state of the art security energy management lighting strategies and maintenance efficiency Discover innovative solutions for human resources needs Integrate the Internet into your management program Automate nearly all your tasks for major productivity gains Apply benchmarking standards and other measurements that demonstrate and assure facility management productivity Accompanying time saving efficiency boosting CD ROM is loaded with sample documents from budgets schedules plans to cost benefit analyses checklists forms and audits standards for communications and database integration building and construction CAD conventions Web links and other resources
