Proceedings of the Sustainable Concrete Materials and Structures in Construction 2020 Sharifah Salwa Mohd Zuki,Shahrul Niza Mokhtar,Shahiron Shahidan,Mohd Haziman Bin Wan Ibrahim,2021-05-25 This book gathers a selection of peer reviewed papers presented at the Sustainable Concrete Materials and Structures in Construction 2020 held at Universiti Tun Hussein Onn Malaysia Malaysia on 24th August 2020 The contributions prepared by international scientists and engineers cover the latest advances in and innovative applications with the theme Towards Sustainable Green Concrete The articles in this book cater to academics graduate students researchers as well as industrial practitioners working in the areas of concrete materials and building construction

The Welding Engineer's Guide to Fracture and Fatigue Philippa L Moore,Geoff Booth,2014-11-21 The Welding Engineer's Guide to Fracture and Fatigue provides an essential introduction to fracture and fatigue and the assessment of these failure modes through to the level of knowledge that would be expected of a qualified welding engineer Part one covers

the basic principles of weld fracture and fatigue It begins with a review of the design of engineered structures provides descriptions of typical welding defects and how these defects behave in structures undergoing static and cyclical loading and explains the range of failure modes Part two then explains how to detect and assess defects using fitness for service assessment procedures Throughout the book assumes no prior knowledge and explains concepts from first principles Covers the basic principles of weld fracture and fatigue Reviews the design of engineered structures provides descriptions of typical welding defects and how these defects behave in structures undergoing static and cyclical loading and explains the range of failure modes Explains how to detect and assess defects using fitness for service assessment procedures

New Technologies, Development and Application V Isak Karabegović,Ahmed Kovačević,Sadko Mandžuka,2022-05-25 This book features papers focusing on the implementation of new and future technologies which were presented at the International Conference on New Technologies Development and Application held at the Academy of Science and Arts of Bosnia and Herzegovina in Sarajevo on 23rd 25th June 2022 It covers a wide range of future technologies and technical disciplines including complex systems such as industry 4 0 patents in industry 4 0 robotics mechatronics systems automation manufacturing cyber physical and autonomous systems sensors networks control energy renewable energy sources automotive and biological systems vehicular networking and connected vehicles intelligent transport effectiveness and logistics systems smart grids nonlinear systems power social and economic systems education IoT The book **New Technologies Development and Application V** is oriented towards Fourth Industrial Revolution Industry 4 0 in which implementation will improve many aspects of human life in all segments and lead to changes in business paradigms and production models Further new business methods are emerging transforming production systems transport delivery and consumption which need to be monitored and implemented by every company involved in the global market

Materials for Architects and Builders Arthur Lyons,2014-08-21 **Materials for Architects and Builders** provides a clear and concise introduction to the broad range of materials used within the construction industry and covers the essential details of their manufacture key physical properties specification and uses Understanding the basics of materials is a crucial part of undergraduate and diploma construction or architecture related courses and this established textbook helps the reader to do just that with the help of colour photographs and clear diagrams throughout This new edition has been completely revised and updated to include the latest developments in materials research new images appropriate technologies and relevant legislation The ecological effects of building construction and lifetime use remain an important focus and this new edition includes a wide range of energy saving building components

Proceedings of the 7th International Conference on Industrial Engineering (ICIE 2021) Andrey A. Radionov,Vadim R. Gasiyarov,2022-01-01 This book highlights recent findings in industrial manufacturing and mechanical engineering and provides an overview of the state of the art in these fields mainly in Russia and Eastern Europe A broad range of topics and issues in modern engineering is discussed including the

dynamics of machines and working processes friction wear and lubrication in machines surface transport and technological machines manufacturing engineering of industrial facilities materials engineering metallurgy control systems and their industrial applications industrial mechatronics automation and robotics The book gathers selected papers presented at the 7th International Conference on Industrial Engineering ICIE held in Sochi Russia in May 2021 The authors are experts in various fields of engineering and all papers have been carefully reviewed Given its scope the book will be of interest to a wide readership including mechanical and production engineers lecturers in engineering disciplines and engineering graduates

Robustness Analysis in Decision Aiding, Optimization, and Analytics Michael Doumpos,Constantin Zopounidis,Evangelos Grigoroudis,2016-07-12 This book provides a broad coverage of the recent advances in robustness analysis in decision aiding optimization and analytics It offers a comprehensive illustration of the challenges that robustness raises in different operations research and management science OR MS contexts and the methodologies proposed from multiple perspectives Aside from covering recent methodological developments this volume also features applications of robust techniques in engineering and management thus illustrating the robustness issues raised in real world problems and their resolution within advances in OR MS methodologies Robustness analysis seeks to address issues by promoting solutions which are acceptable under a wide set of hypotheses assumptions and estimates In OR MS robustness has been mostly viewed in the context of optimization under uncertainty Several scholars however have emphasized the multiple facets of robustness analysis in a broader OR MS perspective that goes beyond the traditional framework seeking to cover the decision support nature of OR MS methodologies as well As new challenges emerge in a big data era where the information volume speed of flow and complexity increase rapidly and analytics play a fundamental role for strategic and operational decision making at a global level robustness issues such as the ones covered in this book become more relevant than ever for providing sound decision support through more powerful analytic tools

The British National Bibliography Arthur James Wells,2004 **Architectural Publications Index** ,2003 **Journal of Engineering Mechanics** ,1999 Design of Structural Elements C.
