Orogenies of Light Richard Leviton, 2019-10-29 ONE DAY IN 2084 EARTH S ORIGINAL MOUNTAINS SUDDENLY REAPPEARED ON THE PLANET AS 85 000 DOMED CANOPIES OF LIGHT FROM THE STARS The story of this return is told by Blaise a well informed but mysterious figure who claims to be an engineer 134 years old and part of an ancient team that first designed the planet It s a chronicle of his last field assignment a unique career retrospective and a firsthand account of the momentous return of the domes These are giant half spheres of Light that originally helped create the biosphere and were the Earth s first mountains They generated the Earth s sacred sites and the mythic homes of the gods and linked them all in a global pattern of Light The domes arrived all at once and started to reorganize the global landscape It was their fourth visit and it would be several perilous years as the planet adjusts to it Blaise and his team of geomancers travel across the Earth and time to deal with the unprecedented perturbations set in motion by this celestial rescue of the planet Problems are rife the revolt of Pan and the Nature Spirits the continuing dark interference by humanity s ghostly forebears the resurgence of Babylon and its imperious agenda and the planet s dangerous drift towards becoming flattened like a hockey puck But the opportunities are fabulous too as the planet enters an era of unceasing Light and beatific conditions The return of the domes lays bare the true history of the Earth how it diminished from perfection the benign superintendents of this bold experiment and who its earliest inhabitants were and the massive problems they created which still affect us today It is a genuinely apocalyptic moment as the Earth reveals its original bright pattern of energy and consciousness and starts at last to fulfill its destiny

False Dawn Lee Penn, 2004 The interfaith

movement which began with the 1893 World's Parliament of Religions in Chicago has grown worldwide. Although this movement has been largely unknown to the public, it now provides a spiritual face for globalization, the economic and political forces leading us all from nationalism to One World. The most ambitious organization in today's interfaith movement is the United Religions Initiative (URI) founded by William Swing, the Episcopal Bishop of California. Investigative reporter Lee Penn, a Catholic ex-Marxist, exhaustively documents the history and beliefs of the URI and its New Age and globalist allies, the vested interests that support these movements, and the direction they appear to be taking. The interfaith movement is no longer merely the province of a coterie of little-heeded religious idealists with grandiose visions. The URI's proponents have ranged from billionaire George Soros to President George W. Bush, from the far right Rev. Sun Myung Moon to the liberal Catholic theologian Hans Küng, and from the Dalai Lama to the leaders of government-approved Protestant churches in the People's Republic of China. The interfaith movement, including the URI, is being promoted by globalist and New Age reformers who favor erosion of national sovereignty, marginalization of traditional religions, establishment of global governance, and creation of a new Earth-based global spirituality, in effect, a one-world religion. Therefore, the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order, the new civilization now proposed by Mikhail Gorbachev, the last leader of the Soviet Union. In *The Reign of Quantity and the Signs of the Times*, French metaphysician René Guénon spoke of the anti-tradition, the forces of materialism and secular humanism, finally giving way to the counter-tradition, the satanic inversion of true spirituality, leading to the regime of Antichrist. The anti-tradition weakens and dissolves traditional spiritualities, after which the counter-tradition sets up a counterfeit in their place. Since Guénon's time, as is well known, anti-traditional forces have greatly advanced worldwide. It is less well known that counter-traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before. The counter-tradition is making inroads on the political and cultural Right as much as it is doing on the Left. *False Dawn* painstakingly documents these trends and speculates on their future development. In so doing, the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century. This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here, all of it unsettling, disquieting, occasionally downright scary.

William Murchison Radford, Distinguished Professor, Baylor University: When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning: Anyone who makes theological truth subservient to utopianism denigrates all religions. Douglas LeBlanc, Editor, GetReligion.org

Life After Near Death Debra Diamond, 2016-01-25. *Life After Near Death* is the only book to explore the deeper meaning of the near-death experience (NDE) through the prism of its miraculous aftereffects. You don't need to be declared clinically dead to experience an NDE. Nor must you experience many of Raymond

Moody's nine elements including a life review, an out-of-body experience, encounters with deceased loved ones, and a decision to return to one's body. The key is whether you return from the experience permanently transformed. *Life After Near Death* profiles a dozen cases of specific cognitive and physiological near-death aftereffects, including newfound musical and artistic talents, mathematical gifts, enhanced hearing, elevated IQ, improved eyesight, spontaneous healing, and electrical sensitivity. It explores new evidence to shed light on this phenomenon and reveals for the first time the link between predisposition and the NDE. The role of manifestation and intent in the creation of the NDE. The unmistakable connections among the energetic world, frequency, and the NDE. The circumstances and conditions that give rise to a NDE. *Life After Near Death* offers a new science-based paradigm to unravel the NDE and our assumptions regarding the afterlife. Although you can return from an NDE, you will never return to your former life. *The Love Inspiration Ascension Pathway* Love Inspiration, The Love Inspiration Ascension Pathway helps to accelerate the transition from an old egoic-based consciousness into a new unified or love-based consciousness. As you progress through this ebook, you will be guided towards receiving many energetic upgrades, uplifts, and ascension-based attunements that will help to bring about a deepened sense of love, light, purity in your life. May you enjoy these free ascension-based healing energies, and may they help to bring much love, light, happiness into your life.

User Design Alison A. Carr-Chellman, 2007. *User Design* offers a fresh perspective on how front-line learners/users can participate in the design of learning environments. The author challenges the universal assumption that front-line users must be relegated to the role of offering input and that the actual design activity of learning systems must still be conducted only by experts. The book presents a new set of methods and strategies that show how the tools of professional designers can be effectively shared with broad groups of users and other participants in the process of creating their own learning. Drawing on ideas from human-computer interface design, stakeholder participation, critical theory, systems theory, change processes, learning theory, and basic design theories, this innovative work is organized around the major issues associated with user design. Areas covered include differences between user design, stakeholder involvement, and user-centered design; historical perspectives and empirical research; user design tools and ways of facilitating user design; gaining leadership support in an organization; and conflicts that arise during user design engagement. Accessible to all audiences, *User Design* can serve as a strong companion volume to traditional instructional design texts, yet is comprehensive enough to be a stand-alone text in design courses. It will appeal to instructional designers, curriculum developers, training managers, designers, community organizers, adult educators, as well as anyone interested in the dynamics of power and emancipation in learning. [2012 A Family Brief](#) Robert L. Horton, 2009-10-31. This book is based off of years of research starting with Zecharia Sitchin's indisputable documentary evidence of Earth's origins and man's celestial ancestors. Continuing on into man's current interaction with those who from heaven to Earth came. *2012 A Family Brief* brings the last 8 years of the Congressional ET-related Disclosure Project into full view of the public arena. It covers the joint government ET involvement to create huge

underground bases and facilities built to protect man kind from possible upcoming global catastrophes that have been seen to occur in the year of or around 2012 It also contains personal accounts of the Black Budget Operation Operators who have come forward as Whistle Blowers to give their amazing testimony to congress as part of the 2001 Disclosure Project led by Dr Stephen Greer All written and recorded Whistle Blower testimony with in this briefing has been sourced courtesy of Project Camelot at [www projectcamelot org](http://www.projectcamelot.org) Ran and diligently operated by Bill Ryan and Kerry Cassidy This book also contains part one of The NEXUS REPORT that was written by an individual under the pseudonym of Astralwalker where it originated as a thread at [www projectavalon org](http://www.projectavalon.org) also ran and operated by Bill Ryan and Kerry Cassidy of Project Camelot
