of Fairytales along with Anima and Animus in Fairytales and combines them into a single volume clarifying the Jungian approach to interpreting fairytales and offering a deep dive into anima and animus The anima and the animus deliver to consciousness the life affirming fruit Individuation requires engagement with these contra sexual archetypes but von Franz observes that Anima and animus are not always happy to have this relationship they lose part of their power when they are made conscious She further warns of the inflation resulting from possession by them and points out that the animus loves to create an atmosphere of mist in which nobody can find orientation These are supra personal elements of psychic life capable of breaking beyond the tendency of consciousness to become one sided This second section of Volume 8 provides an insightful explanation of a woman s encounter with her animus and a man s encounter with his anima
