Cases on Informal Learning for Science and Mathematics Education Sun, Li,Lin, Cheng-Yao,2025-04-17 Many educators face the challenge of engaging students in science and mathematics often struggling to bridge the gap between theoretical concepts taught in classrooms and their real world applications This disconnect can lead to disinterest and disengagement among students hindering their learning outcomes Cases on Informal Learning for Science and Mathematics Education offers a solution to this problem by showcasing how informal learning experiences can significantly enhance students understanding and engagement in these subjects This book demonstrates the potential of informal learning to support and complement formal classroom instruction by presenting a rich collection of case studies It highlights how activities such as cooking budgeting visiting museums and participating in after school math clubs can serve as valuable informal learning experiences that deepen students understanding of science and mathematics concepts The book also addresses the challenge of recognizing the value of informal knowledge in problem solving offering insights and strategies for educators to help students leverage their informal learning experiences

Modeling and Simulation in Science and Mathematics Education Wallace Feurzeig,Nancy Roberts,2012-12-06 The world consists of many complex systems ranging from our own bodies to ecosystems to economic systems Despite their diversity complex systems have many structural and functional features in common that can be effectively simulated using powerful user friendly software As a result virtually anyone can explore the nature of complex systems and their dynamical behavior under a range of assumptions and conditions This ability to model dynamic systems is already having a powerful influence on teaching and studying complexity The book in this series will promote this revolution in systems thinking by integrating skills of

numeracy and techniques of dynamic modeling into a variety of disciplines The unifying theme across the series will be the power and simplicity of the model building process and all books are designed to engage the reader in developing their own models for exploration of the dynamics of systems that are of interest to them Modeling Dynamic Systems does not endorse any particular modeling paradigm or software Rather the volumes in the series will emphasize simplicity of learning expressive power and the speed of execution as priorities that will facilitate deeper system understanding

God and Race John Siebeling, Wayne Francis, 2022-01-18 A White pastor and a Black pastor close friends who have each built racially diverse congregations offer a model Christians can follow to open necessary conversations about race encourage unity and foster mutual respect to heal a wounded nation riven by racial tension and political tribalism For years Pastors John Siebeling and Wayne Francis have led thriving congregations that are the embodiment of diversity Siebeling in Memphis and Francis in New York City Many churches and leaders have sought their counsel hoping to emulate their success At the height of the Black Lives Matter protests in Summer 2020 they pooled their insights and experiences to help others facilitate conversations about racism The guide they developed is the basis of God and Race Siebeling and Francis examine the White Black tension from both perspectives and answer all the uncomfortable questions we're afraid to ask regarding ourselves our families our work and relationships and the church Most important they provide practical steps anyone can take to become part of the solution Whether you are a church leader or just a caring person who wants to make a difference God and Race provides inspiration and guidance to help you become an agent of reconciliation and change These two wise pastors teach you how to find your voice and join Jesus in healing to help bring our divided communities together with open minds open hearts and open hands Many Christian books on race either do not ask the hard questions or if they do speak as critics outside the mainstream church Siebeling and Francis probe the meaning of

racial reconciliation and reveal how the church can be a positive and effective leader to move us forward beyond hate and injustice to equality and love
