a brief introduction

12e

A young woman with voluminous, curly brown hair is the central focus. She is wearing a green and white patterned sleeveless top and is looking down at a red smartphone held in her hands. The background is a blurred city street with other people and buildings, suggesting a social setting.

Sociology - 12ed Jon Shepard,2017-10-26 Sociology 12ed offers students a window to absorb the interesting aspects sociology with its perspectives concepts theories and research findings without losing them in density of material that is a barrier in many texts The author is known for presenting material that is comprehensive readable theoretically and empirically sound but in a clear and interesting manner so students will be successful as they grapple to learn about the social factors that promote patterned behavior in themselves and others Sociology 12e encourages critical thinking about conventional wisdom through the development of the sociological imagination the mind set that enables individuals to see the relationship between events in their personal lives and events in their society To this end each chapter opens with a question about some aspect of social life The answer to each question contradicts a popular or common sense belief Sometimes the question will focus on a result that even sociologists doubted until a sufficient amount of convincing research was done The correct answer is given at the beginning of the chapter and further elaboration of the explanation will be within the chapter itself This theme of questioning what they are reading continues throughout each chapter The textbook design retains the same dynamic pedagogically sound format of past editions blending theory and application to continue to stimulate students to become critical thinkers and active learners In chapter enhancement features include the latest sources maps illustrations critical thinking scenarios and in chapter check lists In chapter boxes include Sociology in Your Life Consider This Research an examination of research methodology Accent on Theory and integrated coverage of global and cultural perspectives
