Bee Products and Their Applications in the Food and Pharmaceutical Industries Dilek Boyacioglu,2022-04-14

Bee Products and Their Applications in the Food and Pharmaceutical Industries focuses on the health benefits of selected bee products by looking more closely at their pharmacological potentials and therapeutic applications in coping with various diseases The book explores some of these products such as royal jelly propolis and bee venom which is highly attractive to the food supplement sector due to the biological actions that are proved by scientific studies Bee products also attract the cosmetics industry by utilizing those products in various applications such as hair products toothpaste sunscreen creams lip balsams or facial moisturizing creams Each chapter focuses on a particular health benefit providing more compact and detailed information about each activity for a specific interest The mainframe of the book is based on the medicinal and pharmacological functions of bee products with the therapeutic applications for each bee product supporting the mechanism of action of their biological functions Explores bee products such as honey royal jelly propolis bee venom bee pollen bee bread and beeswax health benefits Includes the potential of bee products as a food supplement and cosmetic product Covers the medicinal and pharmacological functions of bee products *The Bible of Bee Venom Therapy* Bodog Felix Beck,1997

Potentiating Health and the Crisis of the Immune System S. Fulder,A. Mizrahi,N. Sheinman,2013-06-29 With all the enormous resources that are invested in medicine it is sometimes a mystery why there is so much sickness still in evidence Our life span though higher than at any time in history has now leveled off and has not significantly increased in the last two generations There is a one third increase in long term illness in the last 20 years and a 44% increase in cancer incidence which are not related to demographic issues In some modern countries the level of morbidity defined as days off work because of sickness has increased by two thirds in this time Despite 1 trillion spent on cancer research in 20 years the War On Cancer has recently been pronounced a complete failure by the u s President s Cancer Panel Evidently we still have a long way to go The goal of Health for All by the Year 2000 as the World Health Organization has put it is another forgotten dream As ever the answer will be found in breaking out of the old philosophical patterns and discovering the new as yet unacceptable concepts The problems of medicine today require a Kuhnian breakthrough into new paradigms and new ways of thinking And these new ways will not be mere variations of the old but radical departures This book and the conference upon which it was based is part of a search for these new pathways **Bee Venom, Its Collection, Toxicity and Proteins**
