The good news is that it has been a minimalist since almost a decade now, and I've learned A LOT while doing it. Here are a few of our favorite resources and tips to get you started with minimalism quickly. Let's get cracking. Minimalism is a very powerful tool. It can free up so much time that you might never have even thought about before. However, it isn't so easy as just letting go of all the stuff in your house. Getting rid of the clutter in your house is a gradual process. So it's important to pick the right approach for the first time and continue with minimalism the next time, too. So what should you do the first time you decide to give it a shot? First, get started by decluttering everything in sight that you think needs to go. Get rid of any items that are junk that simply takes up space. Now clear the clutter up inside of your home, too. Then take everything out. How do you do this exactly? Well, the first step towards getting rid of the clutter in your life is to determine whether or not you want to live a minimalist lifestyle, or if you would prefer to live with some clutter. Once you make that decision, you can easily move towards a minimalist lifestyle by decluttering your home and office and getting rid of anything that doesn't need to be there. You'll have a better idea of what minimalist living is really like once you're clear about what you want from decluttering.
