

Future of Biofloc Technology in Bangladesh

With a rapidly growing population and corresponding food demand, expansion and intensification of aquaculture, [biofloc fish farming](#) is happening in Bangladesh at a fast rate. The aquaculture sector in Bangladesh is contributing to the nation's economy, assisting in poverty alleviation and supplying necessary nutrition.

However, a vast quantity of waste generation in aquaculture, extensive use of antibiotic and chemicals have become a major cause of concern for the environment as well as public health. Thus, sustainable aquaculture solutions are urgently required to increase the output without compromising the quality and the environment.
