**Solutions** Corey Barak, Hadrian Knotz, Nils Rasmussen, Michael Applegate, 2017-10-12 The world is speeding up and changes are rippling across the globe with blazing speed. If your organization is slow to respond, you can quickly fall behind. One of the best investments you can make in this technology-driven marketplace is to empower employees to make fast, smart decisions. To do that, you need to arm them with modern, integrated corporate performance tools to maximize their ability to set goals, adjust plans and budgets, and monitor performance. In *Enabling World Class Decisions*, four technology executives with more than 100 years of combined experience in corporate performance management and business intelligence software answer questions such as: Why is it important to consider business intelligence solutions to enable better decision making? How can you better prepare for the decision making process? What should you consider when deploying a business intelligence platform?

*Making Cost Accounting Data Work for Public Financial Management* Lorena Rivero del Paso, Chloe Cho, Ramon Narvaez Terron, 2025-08-08 This paper examines the role of cost accounting in public financial management, focusing on budget credibility, performance-based budgeting, public procurement, and corruption detection. Despite demonstrated benefits, cost accounting remains underutilized in the public sector due to implementation constraints. The working paper proposes the adoption of automated cost accounting systems to streamline processes, reduce operational costs, and support complex data analyses. It further emphasizes the need for interoperability between government financial systems and administrative records to enhance the granularity of costing indicators. The paper also explores machine learning as a method to support budgetary decision making with cost accounting data.
