Think Like a Freak Steven D. Levitt, Stephen J. Dubner, 2014-05-13 From the rule breaking authors of international bestsellers *Freakonomics* and *Superfreakonomics* this is the ultimate guide to how to Think Like a Freak The *Freakonomics* books have come to stand for something challenging conventional wisdom using data rather than emotion to answer questions and learning to unravel the world's secret codes Now Levitt and Dubner have gathered up what they have learned and turned it into a readable and practical toolkit for thinking differently thinking that is like a Freak Whether you are interested in the best way to improve your odds in penalty kicks or in major global reforms here is a blueprint for an entirely new way to solve problems Along the way you'll learn how the techniques of a Japanese hot dog eating champion can help you the reason an Australian doctor swallowed a batch of dangerous bacteria why Nigerian e-mail scammers make a point of saying they're from Nigeria and why Van Halen's demanding tour contract banning brown M&Ms was really a safety measure You'll learn why sometimes it's best to put away your moral compass and smarter to think like a child You will be given a master class in incentives because for better or worse incentives rule our world And you will learn to quit before you fail because you can't solve tomorrow's problem if you aren't willing to abandon today's dud Levitt and Dubner see the world like no one else Now you can too Never before have such iconoclastic thinkers been so revealing and so much fun to read
