

# Logical Fallacies

---

A **logical fallacy** is an error of reasoning. These can weaken the credibility of your paper and alienate your reader. The following examples illustrate some of the logical fallacies you should avoid. If you are concerned you may be unintentionally using a logical fallacy, talk to a professor or consult other resources for more information about logical fallacies.

## Irrelevant Appeals

Irrelevant appeals use information or arguments that are unrelated to the given material and include the following:

### Popular Appeal to Authority

This appeal relies on widespread acceptance, not logic.

**Example:** You shouldn't get uptight about copyright infringement. Everyone owns illegally copied music.

### Irrelevant Appeal

This appeal relies on outside authorities or sources that have no expertise about the subject.

**Example:** If a famous football player endorses a brand of sports medicine, then it must be an effective product.

### Appeal to Ignorance

This appeal relies on the absence of contradictory knowledge or evidence.

**Example:** Of course unicorns exist. No one has ever proven that they don't.

### Ad Hominem

This appeal relies on irrelevant characteristics of persons associated with an opposing argument. In politics, this is often called "mud slinging."

**Example:** We can't take this candidate seriously because he used to be an actor.

### Straw Man

This appeal misrepresents an opponent's position by turning it into an indefensible claim through misquoting or oversimplifying the issue.

**Example:** The school principal wants to stop serving cake in the cafeteria. He clearly wants us to go hungry.

### Emotional Appeal or Ad Misericordiam

This appeal relies on an irrelevant emotional appeal at the expense of logic.

**Example:** Look at the cute little puppy! How could such a sweet little thing be capable of eating your shoe?

### Red Herring

This appeal sidetracks an issue by bringing up unrelated information to distract the audience from the issue at hand.

**Example:** The car wouldn't have broken down if you would have taken out the trash when I asked.

## Improper Generalization

Improper generalizations summarize a point using inadequate evidence or faulty arguments and include the following:

### Hasty Generalization

This appeal makes a broad generalization based on scanty or inconclusive evidence.

**Example:** I'm never eating dinner again. I've tried cooking several dishes and all of them are disgusting.

contributors accurately portray the true diversity of Writing Center WAC partnerships and assess the compatibility of these partnerships with larger institutional missions The volume touches on such topics as the use of computers in writing instruction the use of student writing tutors and the problems inherent in discipline specific language By deepening our knowledge of the merging of Writing Centers and WAC Programs this book sets the foundation for more advanced future research
