Forthcoming Books Rose Army, 2002 **The Art and Science of Mindfulness** Shauna L. Shapiro, Linda E. Carlson, 2009

Intention is fundamental to any project, endeavor, or journey. Related to intention is the concept of mindfulness, the awareness that arises through intentionally attending to oneself and others in an open, accepting, and discerning way. Drawing from Buddhist teachings and psychological theory, authors Shapiro and Carlson explore why mindful awareness is integral to the therapeutic healing process. Their book integrates the art and science of mindfulness to inspire greater well-being in both clinicians and their patients. As such, mindfulness is understood as a universal human capacity that can help bridge the gap between therapist and patient, reminding us that we are all human beings aspiring to greater health, happiness, and freedom from suffering. Alternative Medicine in Rehabilitation Eric D. Leskowitz, 2003. Part of the Medical Guides to Complementary and Alternative Medicine series, this comprehensive review presents complementary and alternative therapies as they relate to rehabilitation. With an emphasis on evidence-based medicine, this practical resource offers clinical examples, historical and theoretical information, and current research for four groups of therapies: mind-body therapies, body-oriented therapies, energy-based therapies, and emergent approaches. It also covers some of the most widely encountered clinical conditions in rehabilitation, focusing on clinical practice and solid research. **Subject Guide to Books in Print**, 1997 Meditation on Perception

Henepola Gunaratana, 2014-06-10. Use the unique Buddhist practice of meditation on perception as taught by the best-selling author of *Mindfulness in Plain English* to learn how shifting your perspective can transform mental and physical health. Perception, one of the basic constituents of the body and mind, can be both a source of suffering and pain, as well as a source of happiness and health. The Buddhist tradition teaches that perception can be trained and ultimately purified through the practice of meditation. When we understand how perception impacts our lives, we can use it just as we do any other object of meditation to overcome harmful ways of thinking and acting and to develop healthy states of mind. Instead, in *Meditation on*

Perception Bhante G brings us for the first time in English an illuminating introduction to the unique Buddhist practice of meditation on perception as taught in the popular Girimananda Sutta. The ten healing practices that comprise meditation on perception make up a comprehensive system of meditation combining aspects of both tranquility and insight meditation. Tranquility meditation is used to calm and center the mind and insight meditation is used to understand more clearly how we ordinarily perceive ourselves and the world around us. Alternating between these two practices, meditators cultivate purified perception as explained by the Buddha. As a result of these efforts, we progress on the path that leads to freedom, once and for all, from illness, confusion, and other forms of physical and mental suffering. Meditation on Perception gives us the keys to move beyond ordinary, superficial perception into an enlightened perspective, freed from confusion and unhappiness.
