*International Financial Reporting Standards and Foreign Direct Investment in ASEAN* Maryam Yousefi Nejad, 2020

*Measuring and Controlling Sustainability* Adam Lindgreen, Christine Vallaster, Dr. Shumaila Yousofzai, Bernhard Hirsch, 2018-09-03

Efforts to establish the measurement and control of sustainability have produced notable tools but those instruments lack applicability in practice. Increasing the level of standardization of such tools also seems difficult to achieve because the contexts surrounding the focal organizations differ considerably. Therefore what we need is a systematic interdisciplinary assessment of how to measure and control sustainability so that we can establish an essential definition and up to date picture of the field.

*Measuring and Controlling Sustainability* attempts to provide such an assessment in 17 chapters organized into four main topic sections: a organizations and social value creation concepts responsibilities and barriers b accounting measurement performance and diffusion of social value c practical and managerial insights from real life cases and d choices incentives guidance and ethics. This research anthology provides a comprehensive collection of cutting edge theories and research that will further the development and advancement of measuring and controlling sustainable efforts in theory and managerial practice.

*Ifrs Guidebook: 2016 Edition* Steven M. Bragg, 2015-09-26

International Financial Reporting Standards (IFRS) are the basis for financial reporting. The original IFRS documents span thousands of pages and so are difficult to research. The IFRS Guidebook solves this problem by condensing the key elements of IFRS into a single volume. This book describes each accounting topic, how accounting information is to be disclosed and where to look in the IFRS source documents for additional information. The text contains hundreds of practical examples that show how to apply IFRS to real world situations as well as sample journal entries and usage tips.
