## **A Question Of Identity Women Science And Literature:**

**A Question of Identity** Marina Benjamin, 1993 *Women Science and Literature* **Through a Glass Darkly. Women in the Scientific Elite** Izolda Takács, 2022 The primary goal of this book is to present the career paths of female academics and doctors of science to show gender stereotypes that still exist among scientists and to explore the factors that have helped and hindered them in their careers In addition the aim is to show whether any inhibitory factors had aspects that can be traced back to gender discrimination as well as how doctors of science and or academics of the Hungarian Academy of Sciences have managed to overcome the obstacles posed by traditional gender roles Furthermore the book also deals with general issues relating to the role of women in society Therefore a chapter is included which examines the equalities between women and men as fundamental human rights and highlights the general philosophical issues of gender inequality and the origins of binary oppositions as well as the problems of gender bias in the workplace and organisational climate The book is addressed to both professional audiences as well as anyone wishing to have an overview of new approaches to the questions and problems mentioned above *Encyclopedia of Literature and Science* Pamela Gossin, 2002-08-30 Science and literature have always been strange bedfellows Like puzzle pieces they fit because they re different Some of the greatest works of world literature have been inspired by the marvels of the scientific world Scientists have written works of the imagination Even formal scientific writings have been known to employ rhetoric There is a tendency to think of literature and the humanities in general as having little to do with science Yet scholars have conducted fruitful studies of the history and philosophy of science With the rise of technology scholars have also applied scientific analysis to the study of literature and the creative process The intersection of scientific and humanistic inquiry is finally being mapped This volume includes more than 650 A Z entries on topics and themes in science and literature significant writers key scientists seminal works and important theories and methodologies This reference defines the rapidly emerging interdisciplinary field of literature and science An introductory essay traces the history of the field its growing reputation and the current state of research Broad in scope the volume covers world literature from its beginnings to the present day and illuminates the role of science in literature and literary studies A wide range of experts contributed entries to this volume each of which concludes with a brief bibliography The entire volume closes with a list of works for further reading **Geography, Science and National Identity** Charles W. J. Withers, 2001-10-04 Charles Withers book brings together work on the history of geography and the history of science with extensive archival analysis to explore how geographical knowledge has been used to shape an understanding of the nation Using Scotland as an exemplar the author places geographical knowledge in its wider intellectual context to afford insights into perspectives of empire national identity and the geographies of science In so doing he advances a new area of geographical enquiry the historical geography of geographical knowledge and demonstrates how and why different forms of geographical knowledge have been used in the past to constitute national identity and where

those forms were constructed and received The book will make an important contribution to the study of nationhood and empire and will therefore interest historians as well as students of historical geography and historians of science It is theoretically engaging empirically rich and beautifully illustrated *Science, Sexuality and Sensation Novels* L. Garrison, 2010-11-30 This fascinating new book offers a detailed account of the prolific debate about the sensation novel and considers the genre's dialogues with a number of sciences Well known and obscure sensation novels are read against this context in order to recover the forgotten history of sensual reading the genre inspired Reader's Guide to the History of Science Arne Hessenbruch, 2013-12-16 The Reader's Guide to the History of Science looks at the literature of science in some 550 entries on individuals Einstein institutions and disciplines Mathematics general themes Romantic Science and central concepts Paradigm and Fact The history of science is construed widely to include the history of medicine and technology as is reflected in the range of disciplines from which the international team of 200 contributors are drawn Frankenstein's Science Christa Knellwolf King, Jane R. Goodall, 2008 Frankenstein's Science contextualizes this widely taught novel in contemporary scientific and literary debates providing new historical scholarship into areas of science and pseudo science that generated fierce controversy in Mary Shelley's time anatomy **Women, Science and Medicine 1500-1700** Lynette Hunter, Sarah Hutton, 1997 From 1500 to 1700 women made a substantial contribution to the development of science medicine technology and the philosophy of ideas The contributors provide studies on women in science and medicine and explore methodologies for women's history This collection throws light on the achievements of women in the fields of science medicine and technology and offers a basis for reconsidering discipline boundaries which have conspired to write women out of much intellectual history Feminist Periodicals, 1995 Science Fact and Science Fiction Brian M. Stableford, 2006 Publisher description *Keats-Shelley Journal*, 1994 **Women and Science in India** Neelam Kumar, 2009 Transcript of papers presented in a seminar and articles previously published in several journals *Narrating Women's History in Britain, 1770-1902* Miriam Elizabeth Burstein, 2004 In the end she argues that jettisoning older claims about women's supposed invisibility in history as well as about the subversiveness of her appearance therein allows us to revitalize questions about the women's voice of writing women into history and indeed of marginal literature itself Jacket **Visible & Invisible Persons Distributed in Space** Mark Jenkins, 1996 **Studies in History**, 1996 **Utopian Studies**, 1995 *Women's Studies Index*, 1996 *Virginia Woolf* Ann L. Ardis, Bonnie Kime Scott, 2000 At the end of the twentieth century the questions raised and issues explored in Woolf studies prove to be sufficient themes of inquiry for a new century Can there exist common ground between queer theorists and lesbian feminists or are their causes not connected and must they go their separate ways Virginia Woolf belongs simultaneously to her time and to ours What allusions would her contemporaries have taken for granted that must now be recovered through meticulous scholarship What codes whose meanings are apparent to readers now would have been available to very few in her own time What was popular film culture like and what connections might

we find between Woolf's art and British film of the 1920s How can Woolf help us think through the dangers of nationalism What does *Three Guineas* contribute to a discussion of corporate globalism And how does it illuminate what has happened for women in the academy and in the professions in the sixty years since it was published Contributors to *Virginia Woolf Turning The Centuries* who pose and suggest answers to these and many other questions include Julia Briggs Suzette Henke Sally Greene Alison Booth Pamela Caughie Judith Roof Diane Gillespie Melba Cuddy Keane and Jane Lilienfeld

Nineteenth-century Studies, 2000      **Afro-future Females** Marleen S. Barr, 2008 *Afro Future Females* Black Writers Chart Science Fiction's Newest New Wave Trajectory edited by Marleen S Barr is the first combined science fiction critical anthology and short story collection to focus upon black women via written and visual texts The volume creates a dialogue with existing theories of Afro Futurism in order to generate fresh ideas about how to apply race to science fiction studies in terms of gender The contributors including Hortense Spillers Samuel R Delany Octavia E Butler and Steven Barnes formulate a woman centered Afro Futurism by repositioning previously excluded fiction to redefine science fiction as a broader fantastic endeavor They articulate a platform for scholars to mount a vigorous argument in favor of redefining science fiction to encompass varieties of fantastic writing and therefore to include a range of black women's writing that would otherwise be excluded *Afro Future Females* builds upon Barr's previous work in black science fiction and fills a gap in the literature It is the first critical anthology to address the blackness of outer space fiction in terms of feminism emphasizing that it is necessary to revise the very nature of a genre that has been constructed in such a way as to exclude its new black participants Black science fiction writers alter genre conventions to change how we read and define science fiction itself The work's main point black science fiction is the most exciting literature of the nascent twenty first century

A Question Of Identity Women Science And Literature: Bestsellers in 2023 The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels captivating the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have enthralled audiences this year. A Question Of Identity Women Science And Literature : Colleen Hoovers "It Ends with Us" This touching tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can triumph. A Question Of Identity Women Science And Literature : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papan, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
