Principles of foundation engineering Braja M. DAS, 1984 [Using the Engineering Literature](#) Bonnie A. Osif, 2016-04-19 With the encroachment of the Internet into nearly all aspects of work and life it seems as though information is everywhere However there is information and then there is correct appropriate and timely information While we might love being able to turn to Wikipedia for encyclopedia like information or search Google for the thousands of links

Databases for Data-Centric Geotechnics Kok-Kwang Phoon, Chong Tang, 2024-12-20 *Databases for Data Centric Geotechnics* forms a definitive reference and guide to databases in geotechnical and rock engineering to

enhance decision making in geotechnical practice using data driven methods This first volume pertains to site characterization The opening chapter presents an in depth analysis of site data attributes including the establishment of a new taxonomy of site data under 4S site generalizations spatial features sampling characteristics and smart data to provide a novel agenda for data driven site characterization Type 3 machine learning methods disruptive value are possible as sensors become more pervasive and more intelligent A comprehensive overview of site characterization information is also presented with a focus on its availability coverage value to decision making and challenges The remaining 13 chapters cover databases of soil and rock properties and the application of these databases to rock socket behavior rock classification settlement on soft marine clays permeability of fine grained soils and liquefaction among others The databases were compiled from studies undertaken in many countries including Austria Australia Brazil Canada China France Finland Germany India Iran Japan Korea Malaysia Mexico New Zealand Norway Singapore Sweden Thailand the United Kingdom and the United States This volume on site characterization is a companion to the volume on geotechnical structures Databases for Data Centric Geotechnics represents the most diverse and comprehensive assembly of database research in a single publication consisting of two volumes to date It follows from Model Uncertainties for Foundation Design also published by CRC Press and suits specialist geotechnical engineers researchers and graduate students

Geotechnics for Natural and Engineered Sustainable Technologies A. Murali Krishna, Arindam Dey, S Sreedeeep, 2018-03-01 This contributed volume encompasses contributions by eminent researchers in the field of geotechnical engineering The chapters of this book are based on the keynote and sub theme lectures delivered at the Indian Geotechnical Conference 2017 The book provides a comprehensive overview of the current state of the art research and practices in different domains of geotechnical engineering in the areas of soil dynamics earth retaining structures ground improvement and geotechnical and geophysical investigations It will serve as an ideal resource for academics researchers practicing professionals and students alike
