This is a summary of how to write good, concise proposals for course projects. The focus of this summary is on programming or implementation projects, but the general ideas can be applied to most proposals. The recommended lengths of sections are given assuming a document length of 2 to 5 pages. Use appropriate scaling for longer proposal documents.

## Sample Outline

    - What will be the most difficult issues and challenges in the implementation?
    - How are you using or extending current tools/systems for your problem?
    - What makes your project unique?
  - *Deliverables* (3-5 paragraphs - point-form may be used for some of the description)
    - What will the project produce? (program, report, etc.)
