Content Marketing James Jackson, 2017-05-03 Content marketing is good for your bottom line and your customers. Specifically, there are three key reasons and benefits for enterprises who use content marketing: increased sales, cost savings, and better customers who have more loyalty. Content is the present and future of marketing. Go back and read the content marketing definition one more time, but this time, remove the irrelevant and valuable. That's the difference between content marketing and the other informational garbage you get from companies trying to sell you stuff. Companies send us information all the time; it's just that most of the time, it's not very relevant or valuable. Can you say spam? That's what makes content marketing so intriguing in today's environment of thousands of marketing messages per person per day. Marketing is impossible without great content. Regardless of what type of marketing tactics you use, content marketing should be part of your process, not something separate. Quality content is part of all forms of marketing. Social media marketing: Content marketing strategy comes before your social media strategy. SEO: Search engines reward
