the discovery and ultimate use of Dupont Nylon in the late 30s and early 40s the primacy of silk in women s hosiery waned Silk was ultimately replaced by nylon after the war Nylon stockings which became popular after World War II 1939 1945 and completely replaced the silk stocking usually had seams until the late 1960s They were knitted flat and fully fashioned which means that they were shaped to fit the leg like modern sweaters By decreasing the number of stitches as the stocking was knit towards the ankle a garment was created that was knit to fit By the early sixties fully fashioned or seamed stockings were rapidly replaced by the modern reinforced heel and toe seamless stockings In the 1960s when skirts were worn very short many women began to wear tights pantyhose instead of stockings To show a bit of stocking was no longer accepted and while stockings fought for market share by becoming extremely long they became nearly extinct as pantyhose gained in popularity For much of the 20th century pantyhose were an essential component of any polished woman s outfit But then many Gen X and Boomers stopped wearing pantyhose years ago dismissing them as uncomfortable and easily ruined by runs Most Millennial women have never even worn them and thanks to more casual office wear they don t need to in most offices The majority of the leading brands of pantyhose and nylons in the United States have to struggle with this development Therefore the market needs a new innovation which will be described in the following paper *The Business Model Canvas as a Tool of Marketing Mix* Anastazia Spajic, 2021-09-09 Essay from the year 2020 in the subject Business economics Offline Marketing and Online Marketing grade 1 7 University of Applied Sciences Essen language English abstract Success a catchphrase that plays a significant role in today s society Since success must be visible nowadays and the diligence behind it has lost importance many entrepreneurs are under very high pressure to perform They are therefore faced with high challenges that they have to overcome One of the challenges is to increase the value of the company so every entrepreneur must be clear about how much the respective company is worth In order to run a company successfully and to achieve success automatically it is of particular importance for company managers to have a comprehensive understanding of the functional processes of the company In order to understand these extremely important functional processes there is the so called Business Model Canvas which can help to better understand The Business Model Canvas acts as a planning tool for designing new business models or for revising older business models The planning tool was developed by Alexander Osterwalder The concept was first introduced in the book *Business Model Generation A Handbook for Visionaries Game Changers and Challengers* written by Osterwalder and co author Yves Pigneur In the meantime the book has even become a bestseller which of course speaks for the concept The main target group of the literature are entrepreneurs whose aim is to bring their ideas to the market as innovative competitive projects In the further course of this work the Business Model Canvas will first be defined in detail and its functionality will be explained Then another planning tool is introduced called Marketing Mix This is also defined and its procedure is described This detailed description of both tools is very important to understand their connection The last section serves to explain why the business model canvas is a tool for creating the
