

# A journey of discovery highlighting procurement efficiencies and identifying new practices

## Why CIPS Corporate Certification?

The organisation wanted to ensure its processes were being conducted in compliance with an approved industry standard, as well as identifying any gaps in performance.

It also wanted to confirm its relationship with suppliers, making sure they were offering value for money and favourable terms.

### The results

Thanks to undergoing a procurement health check as a result of CIPS Certification, we have a number of positive benefits of understanding processes and technologies. The assessment has allowed the organisation to identify any possible gaps, introducing new processes to resolve these. This process is now to be used on the other contracting areas of the company. The accreditation from an internationally recognised auditor has raised their procurement function profile, both internally and externally, highlighting their commitment to procurement practice.

### The benefits

- **Cost savings:** The certification is part of a company-wide effort using initiative
- **Standardising:** Professional procurement as the certification means that all staff are now trained to the same level
- **Flexibility:** One of the benefits of the Certification was to ensure procurement by the business of all of the company's activities, including those now achieved
- **Competitiveness:** Recognition of its high standard of procurement practice has raised the company's standing within the industry.
