Drawing Standards & Planning Principles

Before starting for drawing, students should know some standards and drawing office practices which are followed in different Civil Engineering Departments of our country.

Clauses, tables and figures on pages 1 to 4 are being reproduced with the permission of I.S.I. from I.S. 962 : 1967 ("Indian Standard Code of Practice for Architectural and Building Drawings") so that the students may be familiar with the drawing standards and practices.

Layout of Drawings

The layout of drawings shall be such as to facilitate the reading of drawing and make it possible for essential reference to be located easily, especially when drawings are presented by several offices. The standard arrangements shall include all relevant informations and sufficient margins shall be left from the edges of finished drawings to facilitate filing and binding whose prints are taken from the original drawings by photographic process, an indication shall be given of this method of reproduction by inserting the word "photographic" below the border line at the bottom right hand corner.

Title Block

The title block is an important feature in a drawing since it facilitates obtaining uniformity and present details like title of drawing, name of organisation or firm, drawing number, scale, date of drawing etc. in a definite manner. The title block shall be placed at bottom right-hand corner of the sheet where it is readily seen when the prints are folded as indicated in Fig. 1.1.

Size of Title Block

The size of the title block shall be 150 × 100 mm for A₁ (840 × 594 mm drawing sheet) size. Typical layout of the title block is illustrated in Fig. 1.2.

Additional Informations

Where appropriate additional informations and notes on the following items may be included to make drawings complete and self contained as far as possible.

Material List

This shall be immediately above the title block and may include such items as schedule of reinforcements, quantity required etc.

Tailspin Steven Brill,2019-04-02 In this revelatory narrative covering the years 1967 to 2017 Steven Brill gives us a stunningly cogent picture of the broken system at the heart of our society He shows us how over the last half century America s core values meritocracy innovation due process free speech and even democracy itself have somehow managed to power its decline into dysfunction They have isolated our best and brightest whose positions at the top have never been more secure or more remote The result has been an erosion of responsibility and accountability an epidemic of shortsightedness an increasingly hollow economic and political center and millions of Americans gripped by apathy and hopelessness By examining the people and forces behind the rise of big money lobbying legal and financial engineering the demise of private sector unions and a hamstrung bureaucracy Brill answers the question on everyone s mind How did we end up this way Finally he introduces us to those working quietly and effectively to repair the damages At once a diagnosis of our national ills a history of their development and a prescription for a brighter future Tailspin is a work of riveting journalism and a welcome antidote to political despair

Fortress America Elaine Tyler May,2017-12-12 An award winning historian argues that America s obsession with security imperils our democracy in this compelling portrait of cultural anxiety Mary L Dudziak author of War Time For the last sixty years fear has seeped into every area of American life Americans own more guns than citizens of any other country sequester themselves in gated communities and retreat from public spaces And yet crime rates have plummeted making life in America safer than ever Why then are Americans so afraid and where does this fear lead to In this remarkable work of social history Elaine Tyler May demonstrates how our obsession with security has made citizens fear each other and distrust the government making America less safe and less democratic Fortress America charts the rise of a muscular national culture undercutting the common good Instead of a thriving democracy of engaged citizens we have become a paranoid bunkered militarized and divided vigilante nation
