Climate Change, Sustainable Development, and Human Security Dhirendra K. Vajpeyi, 2013 [Climate Change, Sustainable Development, and Human Security](#) Dhirendra K. Vajpeyi, 2013-09-26 This anthology of scholarly essays on climate change sustainable development and human security presents a comprehensive analysis of severe global warming and its potential to impact all aspects of human life and security It has been observed that climate change will most drastically impact poor tropical regions of the world for various reasons The main focus of this collection of essays is to analyze the pro and cons of the global warming and climate change debate among scholars policymakers and scientists as well as to examine the potential adverse impact of global warming climate change on social and economic development and human security food health immigration etc Much controversy exists on the topic and many scientific reports issued by think tanks United Nations groups of scientists NGOs environmentalists and policymakers are concerned about it An extensive discussion and review of literature sets the tone and framework for the volume and facilitates the volume s analyses of the relationship between prevailing climate change global warming models and their ability to provide us information on the topic Exclusion of North America is deliberate included are case studies from countries in Asia Latin America Europe Russia and the Middle East *Climate Change, Policy and Security* Donald Wallace, Daniel Silander, 2018-04-17 This book examines the multiple strategies proposed by the international community for addressing global climate change GCC from both human and state security perspectives It examines what is needed from major states working within the UN framework to engage with the multiple dimensions of a strategy that addresses GCC and its impacts where such engagement promotes both human and state security Two broad frameworks for approaching these issues provide the basis of discussion for the individual chapters which discuss the strategies being undertaken by major state powers the US the EU China India Japan and Russia The first framework considers the multiple strategies mitigation adaptation and capacity building required of the international community to address the effects of GCC The second framework considers the differentiation of GCC policies in terms of security and how the efficacy of these strategies could be impacted by whether priority is given to state security over human security concerns This book will be of much interest to students of human security climate change foreign policy and International Relations *Routledge Handbook of Environmental Displacement and Migration* Robert McLeman, François Gemenne, 2018-03-09 The last twenty years have seen a rapid increase in scholarly activity and publications dedicated to environmental migration and displacement and the field has now reached a point in terms of profile complexity and sheer volume of reporting that a general review and assessment of existing knowledge and future research priorities is warranted So far such a product does not exist The Routledge Handbook of Environmental Displacement and Migration provides a state of the science review of research on how environmental variability and change influence current and future global migration patterns and in some instances trigger large scale population displacements Drawing together

contributions from leading researchers in the field this compendium will become a go to guide for established and newly interested scholars for government and policymaking entities and for students and their instructors It explains theoretical conceptual and empirical developments that have been made in recent years describes their origins and connections to broader topics including migration research development studies and international public policy and law and highlights emerging areas where new and or additional research and reflection are warranted The structure and the nature of the book allow the reader to quickly find a concise review relevant to conducting research or developing policy on particular topics and to obtain a broad reliable survey of what is presently known about the subject

Issues of Governance, Security, and Development in Contemporary Africa Mohamed Saliou Camara, Alem Hailu, Sabella O. Abidde, 2023-12-15 Governance security and development are three critical components of a dialectical nexus that is both dominant and determinant for any objective and fruitful quest for the understanding of the trajectory of a country a region or in the case of Africa a continent from a colonial past to a neocolonial and meta colonial present and toward a future of strategic optimal independence and self reliance That colonial past and the ensuing neocolonial and meta colonial present have made these critical components and the dialectical nexus that they form particularly challenging for the African continent For this reason Issues of Governance Security and Development in Contemporary Africa offers an in depth interdisciplinary analysis of the challenges that contemporary Africa faces within these critical areas as well as the resources and prospects that the continent possesses and can leverage to overcome the said challenges Using case studies involving a range of countries across the continent Mohamed Saliou Camara Alem Hailu and Sabella O Abidde argue that Africa needs to decolonize the terms of reference that guide its nation building statecraft and national development agenda in ways that will facilitate the establishment of viable systems of governance and security and the promotion of genuine development

China Confronts Climate Change Peter H. Koehn, 2015-12-14 China is an integral actor in any movement that will stabilize the global climate at conditions suited to sustainable development for its own population and for people living around the world Assessments of China s climatic system consequences impact and responsibilities need to take into account the strengths weaknesses and potential of subnational governments non governmental organizations transnational non state connections and the urban populace in reducing greenhouse gas emissions A multitude of recent local initiatives that have engaged subnational China in actions that mitigate emissions can be enhanced by powerful framings that appeal to citizen concerns about air pollution and health conditions China Confronts Climate Change offers the first fully comprehensive account of China s response to climate change based on engagement with the global climate governance literature and current debates over responsibility along with specific insights into the Chinese context Responsible implementation of any overarching climate agreement depends on expanding China s subnational contributions To remain fully informed about GHG emissions mitigation China watchers and climate change monitors need to pay close attention to bottom up developments The book provides a valuable contemporary

resource for students scholars and policy leaders at all levels of governance who are concerned with climate change environmental politics and sustainable urban development **Sustainable Development and Human Security; Second Intellectual Dialogue on Building Asia's Tomorrow, Singapore 1999** ,1999-11 **Climate Change, Ethics and Human Security** Karen O'Brien,Asunción Lera St. Clair,Berit Kristoffersen,2010-07-22 Presenting human security perspectives on climate change this volume raises issues of equity ethics and environmental justice as well as our capacity to respond to what is increasingly considered to be the greatest societal challenge for humankind Written by international experts it argues that climate change must be viewed as an issue of human security and not an environmental problem that can be managed in isolation from larger questions concerning development trajectories and ethical obligations towards the poor and to future generations The concept of human security offers a new approach to the challenges of climate change and the responses that could lead to a more equitable and sustainable future Climate Change Ethics and Human Security will be of interest to researchers policy makers and practitioners concerned with the human dimensions of climate change as well as to upper level students in the social sciences and humanities interested in climate change **Annual Report** Kokusai Kyōryoku Jigyōdan,2014 **National Human Development Report** ,2012 Gender, the Environment and Sustainable Development in Asia and the Pacific United Nations,2017 The 2030 Agenda for Sustainable Development strives for more balanced development by addressing the economic social and environmental dimensions holistically The momentum set forth by this agenda provides an historic opportunity for reducing inequality and closing gender gaps This publication examines the intersections between gender and the environment at the household work community and policy levels particularly in the spheres of food security and agriculture energy water fisheries and forestry with a view to providing strategic entry points for policy interventions Based on a grounded study of the reality in the Asia Pacific region this report assembles good practices and policy lessons that could be capitalized on to advance the 2030 Agenda for Sustainable Development

Worldmark Encyclopedia of the Nations: United Nations ,2007 *Human Security and the Environment* Edward Page,M. R. Redclift,2002 In the post Cold War era the pre eminent threats to our security derive from human degradation of vital ecosystems as well as the possibility of war and terrorist attack This substantial book examines this new security environment paradigm and the way in which the activities of societies are shifting the balance with nature The distinguished authors investigate this redefinition of security with particular reference to environmental threats such as climate change and the availability of adequate supplies of food and water They illustrate how unfettered economic growth rising levels of personal consumption and unsustainable natural resource and energy procurement are taking a heavy toll on the global environment This in turn is forcing both developed and developing countries to re evaluate the more immediate environmental security of their own populations For a truly global perspective the authors present a series of country case studies looking at issues of security and environment and comparing how they influence policy and human well being They

also discuss a number of theoretical issues which underpin discussions of environmental security demonstrating that this is a relatively new and essentially contested concept This thought provoking book highlights the way in which both security and sustainability are being reworked as concepts and are being linked increasingly to social economic and cultural factors It will be of great interest to academics researchers and students in environmental management sociology geography international relations and politics
