

CODE BLUE DOCUMENTATION IN REAL TIME

AUTOMATE DOCUMENTATION & IMPROVE ACCURACY WITH CODE BLUE APP

HaysMed nursing staff transformed the way they manage cardiac arrest documentation with a mobile app that automated a labor-intensive and error-prone process. The Reditvus Code Blue app timestamps every intervention to the second and syncs the documentation with the EMR.

HaysMed is part of The University of Kansas Health System located in Hays, Kansas. This 207-bed tertiary care hospital serves the northwest corner of Kansas and a regional referral network of 24 Critical Access Hospitals. HaysMed is a Level III Trauma Center with a dedicated Code Blue team that sees an average of 80 cardiac arrest cases each year.

“Being able to document in real time is a huge time saver. The Reditvus app adds calm to a high-stress situation, and I believe it helps us deliver the best patient care that we can.”

– Sarah Powers, ICU Supervisor

CHALLENGE:

For hospitals of all sizes, accurately documenting a cardiac arrest is complicated by the lack of consistency. Although HaysMed had a standardized paper form for code blue documentation, the urgency of patient care took priority over finding the form. Nurses used whatever they could grab to record key details during a code, writing times and notes on a white board, a paper towel or the leg of their scrubs.

After the code, the recorder would transfer scribbled notes to the EMR. Times were dependent on the clock in the room or someone’s wristwatch. Details of specific interventions could be lost if not written down or overlooked while entering data into the EMR. In addition, the EMR system did not allow nurses to record a medication until it had been ordered and processed through the pharmacy, which took at least 15 minutes. Transcribing code documentation took a nurse at least one hour to complete.

STATS:

- In-hospital cardiac arrest occurs in 290,000 adults each year in the U.S. (Source: JAMA)
- Nearly 30% of in-hospital cardiac arrest cases include at least one error in treatment. (Source: Resuscitation Journal, 2011)
- Half of patients who experienced in-hospital cardiac arrest did not have a clinical document accurately describing the event. (Source: Resuscitation Journal, 2017)

“We didn’t realize we could improve quality so much. When you see it in action, you change your mind.”

– Brian Pfannenstiel, Director of Critical Care

Code Blue Documentation Examples Practicamientras

RJ Shavelson

Code Blue Documentation Examples Practicamientras:

Right here, we have countless book **Code Blue Documentation Examples Practicamientras** and collections to check out. We additionally have the funds for variant types and furthermore type of the books to browse. The satisfactory book, fiction, history, novel, scientific research, as skillfully as various further sorts of books are readily genial here.

As this Code Blue Documentation Examples Practicamientras, it ends going on creature one of the favored ebook Code Blue Documentation Examples Practicamientras collections that we have. This is why you remain in the best website to look the incredible books to have.
