Counterpoints Socials 11 Chapter 8:

Once They Had a Country Muriel R. Gillick, 2010-11-23 *Once They Had a Country* conveys well what it was like to establish a new life in a foreign country over and over again and in constant fear for one's life. The book draws from a remarkable set of primary source materials including letters, telegrams, and police records to relate the story of two teenage refugees during World War II.

Inclusion Steven Epstein, 2008-09-15 *With Inclusion* Steven Epstein argues that strategies to achieve diversity in medical research mask deeper problems: ones that might require a different approach and different solutions. Formal concern with this issue, Epstein shows, is a fairly recent phenomenon. Until the mid-1980s, scientists often studied groups of white, middle-aged men and assumed that conclusions drawn from studying them would apply to the rest of the population. But struggles involving advocacy groups, experts, and Congress led to reforms that forced researchers to diversify the population from which they drew for clinical research. While the prominence of these inclusive practices has offered hope to traditionally underserved groups, Epstein argues that it has drawn attention away from the tremendous inequalities in health that are rooted not in biology but in society. Epstein's use of theory to demonstrate how public policies in the health profession are shaped makes this book relevant for many academic disciplines. Highly recommended. Choice A

masterful, comprehensive overview of a wide terrain.

Safe Spaces Annemarie Vaccaro, Gerri August, Megan S. Kennedy, 2011-11-02 Based on extensive research, recent events, and numerous first-person accounts, this revealing book illuminates both the challenges and triumphs of lesbian, gay, bisexual, and transgender youth and offers effective strategies for combating LGBT marginalization in our nation's schools and communities.

Safe Spaces: Making Schools and Communities Welcoming to LGBT Youth is the first book to offer a comprehensive view of the complex lives of LGBT youth of all ages, from kindergarten through college. Drawing on a wealth of research collected from first-person accounts of students, family, educators, and community members, the authors not only chronicle the struggles of LGBT youth but also describe models of inclusive school and community environments. The authors address the breadth of experiences of LGBT youth in and out of the classroom, at home, and in the community, and in personal interactions with allies and antagonists. They also reveal how these young people, their friends, and families, teachers, and dedicated allies stem the tide of LGBT exclusion.

Most important, *Safe Spaces* offers action steps for readers who want to make their own homes, schools, and communities safe and welcoming spaces for LGBT youth.

Maximizing the Impacts of Academic Research Patrick Dunleavy, Jane Tinkler, 2020-10-10 This is an invaluable guide to better research communication within and beyond academia. With many years of research experience, the authors provide scholars and scientists with systematic advice on how to ensure their research reaches its potential and grows the recognition, influence, practical application, and public understanding of science and scholarship.
