

# Tips for positive sleep hygiene

**Regularity:** To train your body into a regular rhythm, go to bed and get up at the same time every day - even on weekends!

**Avoid caffeine before bed:** coffee, tea, cola drinks and even chocolate are all stimulants that interfere with the ability to fall asleep.

**Bathtime:** a hot bath 1-2 hours before bed can be helpful in raising your body temperature, causing you to feel sleepy as it lowers again.

**Exercise:** Regular exercise is a good idea to help with sleep but try not to do strenuous exercise in the four hours before bed time.

**Natural light:** Getting as much daylight as possible helps the body to produce melatonin, a natural hormone that promotes sleep.

**Sleep when sleepy:** Only try to sleep when you actually feel tired, rather than spending too much time lying awake in bed.

**No naps!:** Try to avoid taking naps throughout the day to ensure you are tired at bedtime.

**Sleep diary:** Use a written sleep diary or an app to monitor your sleep; you might be able to identify patterns and what helps

**Eat right:** A healthy balanced diet will help you sleep well, but timing is important - a heavy meal soon before bed can interrupt sleep.
