Immobilienwirtschaft aktuell 2018 CUREM: Center for Urban & Real Estate Management - Zürich, 2018-04-12 Dieser Band enthält elf aktuelle Beiträge zur Schweizer Immobilienwirtschaft. Die Arbeiten bieten raschen und einfachen Zugriff auf aktuelle Erkenntnisse aus den Themengebieten Urban Management, Immobilieninvestments, Immobilienmanagement sowie Spezialimmobilien. Die Publikation *Immobilienwirtschaft aktuell* erscheint jährlich und wird vom Center for Urban Real Estate Management CUREM herausgegeben. Sie enthält die Zusammenfassungen der besten Abschlussarbeiten des Masters of Advanced Studies in Real Estate. Ziel ist die Förderung der akademischen und zugleich praxisnahen Diskussion immobilienrelevanter Themen in der Schweiz. Die vollständigen Abschlussarbeiten stehen auf www.curem.uzh.ch zum kostenlosen Download zur Verfügung. CUREM ist Teil des Instituts für Banking und Finance an der Universität Zürich und widmet sich der immobilienwirtschaftlichen Forschung und Weiterbildung. Ziel ist die Förderung einer professionellen Immobilienwirtschaft in der Schweiz. Neben dem RICS akkreditierten berufsbegleitenden Studiengang zum Master of Advanced Studies UZH in Real Estate führt CUREM verschiedene Kompaktkurse, Expertenworkshops und Fachveranstaltungen durch.

Fundamentals of Real Estate Development James A. Graaskamp, 1981

Real Estate Law Peter E. Smirniotopoulos, 2016-11-18 Unlike existing textbooks written for law students on specific subjects impacting real estate transactions, *Real Estate Law Fundamentals for The Development Process* uses The Development Process as a framework for understanding how the U.S. legal system regulates, facilitates, and generally impacts real estate transactions and their outcomes. This book not only addresses the nature of specific legal issues directly relating to real estate transactions but also how those issues may best be identified and addressed in advance. This book breaks down the myriad of laws influencing the selection, acquisition, development, financing, ownership, and management of real estate and presents them in context. Readers of *Real Estate Law* will gain a practical understanding from the perspective of a real property developer or real estate executive, investor, or lender of how to identify potential legal issues before they arise, when to involve a real estate attorney, how to select an attorney with the appropriate relevant experience, and how to efficiently and economically engage and manage legal counsel in addressing real estate issues. Written as a graduate-level textbook, *Real Estate Law* comes with numerous useful features including a glossary of terms, chapter summaries, discussion questions, further reading, and a companion website with instructor resources. It is a resource of great value to real estate and finance professionals both with and without law degrees engaged in one aspect or another of real estate development and finance who want to become more conversant in the legal issues impacting these transactions.

Introduction to Real Estate Development and Finance Richard M. Levy, 2019-11-05 This book provides readers with a basic understanding of the principles that underlie real estate development. A brief historical overview and an introduction to basic principles are followed by examples from practice. Case

studies focus on how cities change and respond to the economic technological social and political forces that shape urban development in North America It is important to have a framework for understanding the risks and rewards in real estate investing In measuring return consideration must be given to both investment appreciation and the cash flow generated over the life of a project In addition metrics are presented that can be useful in assessing the financial feasibility of a real estate development proposal This book also provides an overview of the forces of supply and demand that gauge the potential market for a new project In determining the size of residual demand estimates for population growth family formation and new development are important All development projects fall under the auspices of one or several jurisdictions Though every jurisdiction has different rules and procedures basic knowledge of the planning process is critical to the success of all development projects regardless of location Furthermore all projects have a legal component Basic issues of land ownership property rights property transfer and land registration are reviewed all of which need to be considered when a property is sold or purchased This book also provides a primary on the design and construction process In constructing a building a team of experts is first required to design the architectural structural and heating ventilation and air conditioning HVAC systems for a building An overview is provided of each building system wood concrete and steel Critical to a successful real estate development project management principles for the processes of design bidding and construction are explored with close attention given to budgeting scheduling and resource management Essential reading for anyone involved in the development of our built environment this is a must read introduction for students and professionals in architecture urban planning engineering or real estate seeking an approachable and broad view of real estate development and finance

Is the "Japan Problem" Real? Shigeru Otsubo, Masahiko Tsutsumi, 1996

Finance for Real Estate Development Charles Long, 2011

Explaining how finances drive each decision in the real estate development process this helpful industry guide recognizes the complexities and significant risks of each project and illustrates how to reconcile conflicting elements to ultimately achieve success A 36 year real estate development veteran author Charles Long shares the practical information and personal insights that he has gained over the course of his career and weaves relevant real world examples into the text helping to clarify the principles necessary to effectively manage a project in today's financial landscape Ideal both for those starting out in real estate development and experienced professionals who want to learn the theory behind the practice this book offers a different perspective on making the monetary decisions that are involved in property development projects

Rays of Research on Real Estate Development Jaime Luque, 2016-12-08 Real estate development accounts for one of the major economic sectors in most countries yet during the last two decades research on this important topic has been scattered This textbook brings together some of the most important results on this subject The book is written in a pedagogical way and covers crucial aspects of this industry such as growth management and real options land use regulations mixed housing developments taxes externalities housing affordability problems land prices and uncertainty public infrastructures and

housing supply This book is an excellent source for an advance course in real estate development that attempts to cover important contributions in this area The has included multiple choice questions to test students assimilation of the material

Financial, Legal and Economic Fundamentals of Real Estate David Hysinger,2015-01-14 This anthology teaches students the financial legal and economic principles of real estate and addresses its inherently social institutional nature The book covers all aspects of real estate from its role in family relationships to the involvement of major financial institutions

Real Estate Development Matrix Daniel B Kohlhepp, Kimberly J. Kohlhepp,2018-02-02 This book presents a new way of thinking about teaching learning and practicing real estate development Real Estate Development Matrix describes the process in a two dimensional model and presents seven Development Stages which form the horizontal axis and eight sets of Development Tasks which

form the vertical axis to define a 56 cell matrix In each cell money is spent and risks are taken to achieve certain tasks and thereby create or destroy value This holistic process considers the entire life cycle of real estate from its green field inception to its brown field state The book is written by a real estate developer and academic and the presented material is conceptual practical and non technical Jargon has been minimized as much as possible as the author introduces an entirely new model for real estate development that is both academically authoritative and developed in practice It is aimed at a general professional audience participating in the development process but equally the book is ideal for use as a textbook in undergraduate and graduate courses in real estate development and an excellent supplemental text for business courses discussing real estate finance and investment It may also be used as a textbook for professional courses workshops or seminars in real estate development The book is supported by an interactive website at <http://realestatedevelopmentmatrix.com>

Fundamentals of Real Estate Investment Austin J. Jaffe, C. F. Sirmans, 1995 This text provides an introduction to the real estate investment process including the basics of the investment decision the environment in which the investment decision is made the development of cash flow statements and the applications of various investment criteria The Third Edition represents a revision aimed at updating material and improving methodologies for learning
