Love Or Money Farah Sepanlou,2024-05-01 In *Love Or Money* Sarah a young woman caught between the allure of wealth and the yearning for true love faces a life altering decision The story unfolds in a quaint town where Sarah lives with her mother a woman disillusioned by past hardships and now determined to secure financial stability for her daughter When Sarah introduces Tom an affluent but elderly suitor to her mother the initial disapproval quickly dissipates at the sight of his wealth As Sarah grapples with her lack of genuine affection for Tom she is *For Love or Money* Marcia Hill,Ellyn Kaschak,2021-02-27 Realize how you can charge what your services are worth and still care about your clients *For Love or Money* The Fee in Feminist Therapy examines the rarely talked about topic of payment in therapy taking a symbolic and psychological look at the meaning of fees to both the psychologist and client This intelligent book offers firsthand advice and information concerning how gender can make a difference in your feelings about fees and how the managed care environment affects women clients *For Love or Money* will help you handle your concerns about fees as it discusses payment for missed sessions bartering the meaning of fees with African American women and with women in prison and a model for pro bono work Since most therapists don't discuss fees with colleagues *For Love or Money* provides you with a way to gain information that might not otherwise be available to you As a therapist you will explore perspectives on what other therapists think about fees and what feelings other therapists have about the amounts they charge for their services Some of the fee issues you will examine include five typical therapist conflicts that are felt when it comes to fees the need to change managed behavioral health care to include equal payment for mental health care length and type of treatment at the discretion of the client and provider and appropriate training in women's mental health issues for all health care providers setting a frame of therapy that includes session time session length duration of treatment fee confidentiality and the rules of client participation to allow for successful psychotherapy sound clinical reasons for enforcing payment for missed sessions and considering a situation where flexibility is recommended pro bono work that is satisfying With this insightful and well written book you will explore issues such as transference the symbolic meaning of money and feelings you may have that could interfere with your ability to follow through with your own payment policies *For Love or Money* examines many of the issues that surround the taboo topic of fees and will assist you with tackling this seldom addressed and often uncomfortable subject for the therapist who wants to help her clients but may feel distressed at setting and sticking to established fees *For Love or Money* Nancy Folbre,2012-09-06 As women moved into the formal labor force in large numbers over the last forty years care work traditionally provided primarily by women has increasingly shifted from the family arena to the market Child care elder care care for the disabled and home care now account for a growing segment of low wage work in the United States and demand for such work will only increase as the baby boom generation ages But the expanding market provision of care has created new economic anxieties and raised pointed questions Why do women continue to do most care work both paid and unpaid

Why does care work remain low paid when the quality of care is so highly valued How effective and equitable are public policies toward dependents in the United States In *For Love and Money* an interdisciplinary team of experts explores the theoretical dilemmas of care provision and provides an unprecedented empirical overview of the looming problems for the care sector in the United States Drawing on diverse disciplines and areas of expertise *For Love and Money* develops an innovative framework to analyze existing care policies and suggest potential directions for care policy and future research Contributors Paula England Nancy Folbre and Carrie Leana explore the range of motivations for caregiving such as familial responsibility or limited job prospects and why both love and money can be efficient motivators They also examine why women tend to specialize in the provision of care citing factors like job discrimination social pressure or the personal motivation to provide care reported by many women Suzanne Bianchi Nancy Folbre and Douglas Wolf estimate how much unpaid care is being provided in the United States and show that low income families rely more on unpaid family members for their child and for elder care than do affluent families With low wages and little savings these families often find it difficult to provide care and earn enough money to stay afloat Candace Howes Carrie Leana and Kristin Smith investigate the dynamics within the paid care sector and find problematic wages and working conditions including high turnover inadequate training and a pay penalty for workers who enter care jobs These conditions have consequences poor job quality in child care and adult care also leads to poor care quality In their chapters Janet Gornick Candace Howes and Laura Braslow provide a systematic inventory of public policies that directly shape the provision of care for children or for adults who need personal assistance such as family leave child care tax credits and Medicaid funded long term care They conclude that income and variations in states policies are the greatest factors determining how well and for whom the current system works Despite the demand for care work very little public policy attention has been devoted to it Only three states for example have enacted paid family leave programs Paid or unpaid care costs those who provide it At the heart of *For Love and Money* is the understanding that the quality of care work in the United States matters not only for those who receive care but also for society at large which benefits from the nurturance and maintenance of human capabilities As care work gravitates from the family to the formal economy this volume clarifies the pressing need for America to fundamentally rethink its care policies and increase public investment in this increasingly crucial sector
