to engage the student through interactive content that goes beyond basic recall and multiple choice. Contrary to the standard videos on the market which provide a passive learning experience, these videos force students to think critically on the fly and apply and practice chapter concepts. With the contribution of Bob Marx, a leader in the field of Organizational Behavior, the authors have developed several video cases that will leave students with memorable one-of-a-kind experiences with OB concepts and their applications in life and career situations.

- o Drag and Drop: These fun and interactive exercises motivate students to apply concepts within the context of a scenario or case.
- o Comprehension Case: These cases generate a deeper understanding of the core concepts by applying chapter concepts in an open-ended question format. They are the most difficult interactive applications in Connect and are the only exercises that are manually graded.
- o Case Analysis: Written by the authors and leaders in the OB field, the case analysis exercise directs students to apply the chapter's objectives to a real-world based company individual and determine the best course of action for the company individual through a series of multiple choice questions.

**Managing Organizational Behavior: What Great Managers Know and Do** Robert Rubin, Bill Bommer, Timothy Baldwin, 2012-01-19

Managing Organizational Behavior by Baldwin Bommer Rubin distinguishes itself from other OB texts by taking a carefully balanced approach to OB. It covers all traditional OB topics but in a decision-oriented, not just descriptive way. It embraces the best OB models and evidence but engages students in how to use those models to improve their skill sets and more successfully navigate organizational life. It is expressly designed to reconcile student demands for relevance and application with instructor interests in rigor, evidence, and appropriate coverage of the discipline. Its student-centric materials provide students with relevant cutting-edge research and applications through extensive case studies. Manage What: situations and practical Tool Kits that bring OB and career success to real life.
