# CHAOS REPORT 2015

The CHAOS Report 2015 is a model for future CHAOS Reports. There have only been two previous CHAOS Reports, the original in 1994 and the 21st edition of 2014. This new type of CHAOS Report focuses on presenting the data in different forms with many charts. Most of the charts come from the new CHAOS database from the fiscal years 2011 to 2015. The CHAOS fiscal year starts March 1 and runs until the end of February. A few of the charts are from the new SURF database to highlight certain information. The purpose of this report is to present the data in the purest form without much analysis and little thought leadership. Analysis and thought leadership are offered in the CHAOS Manifesto series of reports.

Another major change is how we define success. We have multiple definitions, including our newest. We coded the new CHAOS database with six individual attributes of success: OnTime, OnBudget, OnTarget, OnGoal, Value, and Satisfaction. Our Traditional definition is OnTime, OnBudget, and OnTarget. This means the project was resolved within a reasonable estimated time, stayed within budget, and contained a good number of the estimated features and functions. Our new Modern definition is OnTime, OnBudget, with a satisfactory result. This means the project was resolved within a reasonable estimated time, stayed within budget, and delivered customer and user satisfaction regardless of the original scope. We have the flexibility to present the results for one to six of these attributes in any combination.
