

## Chapter 5. Diary of a Japanese Military Brothel Manager

### My approach to reading the book

Obviously, Japanese women have engaged in prostitution abroad, most notably in the form of the so-called *karayuki-san* who travelled the world plying their trade in the late nineteenth century. It is likewise fairly apparent that Korean women under Japanese colonial rule also engaged in prostitution both in Korea itself and overseas. To demonstrate this point, I will now examine the diary of a “receptionist” at consular stations in Singapore and Burma (modern-day Myanmar) and will consider what it can tell us about the relationship between the Japanese Army and prostitutes.

In August of 2017 the publication of the book, *Diary of a Japanese Military Brothel Manager*, caused a major sensation in South Korea. Namely, it sparked my interest as well. In South Korea, it was widely regarded as being “definitive evidence” of the forced recruitment of Korean colonial women by the Japanese Army. In Japan the only newspaper to cover it was the *Mainichi Shinbun*. Although the *Mainichi Shinbun* did quote portions of the diary, I suspect almost no one in Japan is aware of this book outside of a small group of researchers. I wanted to transcend Korea-Japan relations and to find out what the diary was really all about.

I thought the book immediately and after reading it over once I took it up as a text for discussion with my weekly reading circle. There were those who were apprehensive about the fact that I had brought in a book about such a “touchy” subject, but I insisted that the sensitive nature of the subject material was what made it so interesting. Thus, over the course of the next six months or so, I analyzed its contents thoroughly while making detailed notes.

Before I read the book, I had made the decision that I would think about it in a purely objective manner, not for the purpose of reconciliation, peace, or understanding between Korea and Japan. In other words, I would read it without taking into consideration the political rights or wrongs of colonialism, nationalism, pacifism, and other issues.

One must bear in mind that research is not possible if one starts with the presumption that colonialism is absolutely evil. Most of the non-independent nations of Asia, Africa, Latin America, and Oceania were colonies of the Western powers at some point in the past. Likewise, parts of Asia were colonized by the Japanese, but no matter how bad one might think that was, a researcher should simply view facts as facts.

The problem is that, in South Korea, Japanese colonialism is regarded as the root of all evil, and South Koreans will not discuss the reality and consequences of Japanese rule. In its very nature, scholarship must be free from the shackles of nationalism and pacifism. This is what “academic freedom” is all about. However, in research regarding colonialism, a considerable number of taboos and sacred cows remain. Many people fail to understand
