

Introduction

- In any factory, manufacturing processes are assembled to form a manufacturing system (MS) to produce a desired set of goods.
- The manufacturing system takes a set of orders from customers, translates these orders into resources and raw materials to support production, adds value through a series of manufacturing processes and transforms these raw materials into final goods.

Chapter Two The Lean Manufacturing System Rand:

Case Studies on Competitive Strategies Sumit Kumar Chaudhuri, 2006 The focus of this book is on competitive strategies which assumes an all important role in the wake of competition Without competition strategy has no relevance However as the ecology and landscape of competition are not similar across countries and *Supply Chain Management and Transport Logistics* John Liu, 2011-09-08 The enterprise focused framework of supply chain which an overwhelming majority of books on supply chain management SCM have adopted falls short in explaining recent developments in the real world especially the so called Wal Mart model in which a factory is a virtual logistics network of multiple international manufacturing firms The book fills the gap and examines supply chain and transport logistics The book also includes the development of a unified methodological framework which underpins all the characteristics of the interrelationship between supply chain management and logistics It covers many aspects of the important and innovative developments well The book offers a unique coverage of integrated logistics of navigation aviation and transportation The book not only answers the urgent need for a book on supply chain management and transport logistics but also highlights the central role of supply chain logistics in the emerging fields of sustainable green humanitarian and maritime supply chains and the importance of studying supply chain management together with transport logistics It also explains the difference between supply chain logistics and manufacturing logistics It is a useful reference for those in the industry as well as for those taking related courses
