CASE STUDY

Citrix Systems improves their processes with Infor Birst

Utilizing Infor Birst Business Analytics gave real-time supply and demand insights, which increased on-time delivery

With more than 130,000 global customers, 3,200 suppliers, a three-month product lifecycle, and two days or less delivery lead times, Citrix Systems needed to rapidly aggregate data across hundreds of unlike systems, while enabling unique node analysis.

Citrix chose Birst to digitally network this data. Citrix now has global and near real-time visibility connecting, aggregating, and transforming data every seven minutes—managed by a single IT person. With a digital supply chain, Citrix can track competitors and achieve an industry-leading 5X increase in inventory turns and 99% on-time delivery.
