Proceedings of the Fourth Annual Artificial Intelligence & Advanced Computer Technology Conference Murray Teitell, 1988 **Proceedings of the 5th International Conference on AI Research** Renata Paola Dameri, The International Conference on AI Research ICAIR is becoming a key forum for academics and students whether social scientists

natural scientists or philosophers come together to explore the future of society in the context of AI. Many aspects of AI are now the subject of peer reviewed academic research including the increasing use of Chatbots and GenAI in academe and in society at large. The conference was initially launched in 2019 as the European Conference on Artificial Intelligence and Robotics. After a success inaugural event in Oxford the conference fell victim to Covid and the following three years were held online. Time was taken in 2023 to refocus this fast developing area of research and the name of the conference was changed this year to the International Conference on Artificial Intelligence. The Proceedings of the 2025 edition of the conference include academic research papers, PhD research papers, Masters Research papers and work in progress papers all of which have been presented and discussed at the ICAIR 2025 conference. The proceedings are of an academic level appropriate to a professional research audience including graduates, postgraduations, doctoral and post doctoral researchers. All papers have been double blind peer reviewed by members of the Review Committee.

Advanced Technologies, Systems, and Applications IX Naida Ademović, Zlatan Akšamija, Almir Karabegović, 2024-09-30. This book is a comprehensive compilation of articles that delve into the forefront of interdisciplinary applications of innovative technologies. It presents the scientific inquiries and outcomes showcased at the 15th Days of the Bosnian Herzegovinian American Academy of Arts and Sciences conference held in Sarajevo, Bosnia and Herzegovina from June 20 to 23, 2024. The collection highlights the latest advancements and will draw the interest of researchers in diverse domains of engineering including civil engineering, data science and geographic information systems, computer science and artificial intelligence, advanced environmental engineering and project management, information and communication technologies and advanced electrical power systems. This book serves as a testament to the ongoing pursuit of knowledge and innovation in these fields, offering insights into the current research landscape and future directions. The contributions not only expand the theoretical foundations but also explore practical applications that address contemporary challenges in technology and engineering. The editors gratefully acknowledge the dedicated efforts of all the symposia chairs of the 15th Days of BHAAAS whose meticulous planning and scholarly oversight have enriched this book and contributed to its scholarly significance.

AI Snake Oil Arvind Narayanan, Sayash Kapoor, 2024-09-24. From two of TIME's 100 Most Influential People in AI, what you need to know about AI and how to defend yourself against bogus AI claims and products. Confused about AI and worried about what it means for your future and the future of the world? You're not alone. AI is everywhere and few things are surrounded by so much hype, misinformation and misunderstanding. In *AI Snake Oil*, computer scientists Arvind Narayanan and Sayash Kapoor cut through the confusion to give you an essential understanding of how AI works and why it often doesn't where it might be useful or harmful and when you should suspect that companies are using AI hype to sell AI snake oil products that don't work and probably never will. While acknowledging the potential of some AI such as ChatGPT, *AI Snake Oil* uncovers rampant misleading claims about the capabilities of AI and describes the serious harms AI is already causing in how it's being built.

marketed and used in areas such as education medicine hiring banking insurance and criminal justice The book explains the crucial differences between types of AI why organizations are falling for AI snake oil why AI can't fix social media why AI isn't an existential risk and why we should be far more worried about what people will do with AI than about anything AI will do on its own The book also warns of the dangers of a world where AI continues to be controlled by largely unaccountable big tech companies By revealing AI's limits and real risks AI Snake Oil will help you make better decisions about whether and how to use AI at work and home
